In Re; Addendum addition to MJ02 Facility Diagram/Narrative : Green Escape.

Dear Madame or Sir,

Please be aware that the Green Escape Facility will use smoke and carbon monoxide detectors, throughout the facility (to include in each room). Fire extinguishers will also be available at a minimum of each exit, along with the escape plan. Exits will be well lit and commercial fireproof doors will be used. Please consider this an addition to the cogent existing facility diagram and narrative.

Thank you
