Subject: Ordinance 2016-11

Dear Assembly Members,

I encourage you to vote NO on Ordinance 2016-11 submitted by Assembly member Dale Bagley.

Although I do not reside in the CKPHSA, I believe that such an important issue, Community Hospital and Heath issues, should have input from elected representatives of the community.

Disbanding a group like the CKPHSA silences a community voice that some politicians may not appreciate or want to hear. Listening to the voices of the HSA is a good thing. Their input into your Assembly decision making process is a positive.

It is not expensive, it is not controversial, the CKPHSA is simply a voice of residents providing their input on their community hospital and health care directions.

CPBHSA is described as "oversight", a word many politicians fear. Please, support openness and accountability.

Again I ask that you vote NO on Ordinance 2016-11

Peter T. Zuyus
