Planning Department

MEMORANDUM

TO: Ryan Tunseth, Assembly President
Kenai Peninsula Borough Assembly Members

FROM: Robert Ruffner, Planning Director 

DATE: June 24, 2026

RE: Vacates a portion of Tillygirl Avenue & BG Davis Street

In accordance with AS 29.40.140, no vacation of a Borough right-of-way and/or easement may be made without the consent of the Borough Assembly.

During their regularly scheduled meeting of July 20, 2026 the Kenai Peninsula Borough Planning Commission granted approval of the above proposed vacation by unanimous vote (8-Yes, 1-Vacant) based on the means of evaluating public necessity established by KPB 20.65. This petition is being sent to you for your consideration and action.

A draft copy of the unapproved minutes of the pertinent portion of the meeting and other related materials are attached.

Legal Access (existing and proposed):

North Fork Rd provides legal access along the east side of the plat, which is a 100' dedication maintained by the State of Alaska. On the north Holly Ln, a 60' dedication maintained by the Borough coming from North Fork Rd accesses BG Davis St on the north and continues to Alex Shadell St on the east of the plat. Both BG Davis and Alex Shadell St are undeveloped but provide driveway access to lots adjacent to them. On the South Louis Huber Ave comes off North Fork Rd in a dedicated right-of-way to BG Davis St and then continues across Lot 13 Outlook Subdivision Addition No 1 amended HM83-123 to Alex Shadell St. Louis Huber Ave is a Borough maintained road while BG Davis St and Alex Shadell St remain undeveloped on this end also and only provide driveway access to adjacent lots going north.

The plat proposes to vacate BG Davis St as it enters the subdivision from both directions and dedicate cul-de-sacs at the ends to close them off.

The Addressing Office has recommended BG Davis Street be changed to BG Davis Circle. **Staff recommends** the Plat Committee approve the name change recommended by the Addressing Officer naming the portion south of Holly Ln and north of the plat BG Davis Circle.

The plat is also proposing to vacate Tallygirl Ave from the east right-of way of Alex Shadell St, east to the intersection with BG Davis St.

Section line easements affect the plat running along the middle of BG Davis St and are drawn and noted. State of Alaska Survey section has requested the SLE be reviewed and if they continue beyond the plat, that they be extended and labeled as such. **Staff recommends** the surveyor confirm the extent the SLEs cover and show on the plat and tie them to a plat note.

Block length is not compliant on the west side of the plat. With vacating Tallygirl Ave, the distance from the middle of the round-about at Holly Ln and Alex Shadell St to Louis Huber Ave is 1800 feet. Staff recommends the applicant submit and exception request with the preliminary submittal or supply a break on the east side of Alex Shadell St in the form of a cul-de-sac or bump-out, no more than 1320 feet from the center of the traffic circle to the north and located with Lot 15A.

KPB Roads Dept. comments	Out of Jurisdiction: No Roads Director: Uhlin, Dil Comments: RSA has no objections at this time
SOA DOT comments	
SOA DNR Survey Section	- Verify and clearly depict the 33' & 50' Section Line Easements (SLEs), highlighting that the SLEs will remain and are not being vacated. - The 33' Section Line Easement (SLE) appears to terminate at the cul-de-sac dedication abutting Lot 15B. Verify if the 33' SLE continues northerly along the section line between sections 35 & 36. If that is the case, please be sure to depict and label it as such on the plat.

Site Investigation:

There are steep areas exceeding 20% grade on the plat shown with dotted hatching located along the edge of the plat near the roads. A high point is located in the southeast corner of the plat, north of Louis Huber Ave. The land slopes away from high point in all directions.

There are no areas of inundation and no FEMA designated flood hazards on the property. The plat is not near a hazard protection district either.

Staff Analysis:

Land was originally part of two sections. On the west it was part of the E1/2 E1/2 Section 35, Township 4 South, Range 14 West, SM Alaska. Outlook Subdivision HM 76-37 subdivided the land into 16 lots and several dedications, including Tallygirl Ave and BG Davis Street. Outlook Subdivision Addition No 1 HM 79-22 and Amended HM83-123 platted the land with more accurate measurements and subdivided

The east part originally was the unsubdivided entire Section 36, Township 4 South, Range 14 West, SM Alaska. North Fork Micro AG Subdivision HM 2024-17 subdivided the section into 23 lots, a tract and several dedications, including the east half of BG Davis St.

Neighboring parcels are large tracts ranging in sizes starting at 1.16 acres for the parcels on the north to 9.13 acres for the parcel to the southwest of the plat. Few houses are built on the surrounding parcels, with only 4 shown on aerials of the 13 adjacent.

The plat Outlook Subdivision HM76-37 granted 10' utility easements along all dedications. North Fork Micro Ag Subdivision HM 2024-17 granted a 20' utility easement. HEA sent comment recommending the larger 20' utility easement be granted. KPB 20.30.060.D notes that unless a utility company request additional easements, the front ten feet adjoining rights-of-way shall be designated as a utility easement. Since HEA is requesting the 20' utility be carried over, **staff recommends** the surveyor revised plat note #2 and all notation on the drawing to indicate a 20' utility easement granted this plat. HEA Comment is in the packet for review.

20.65.050 – Action on vacation application

D. The planning commission shall consider the merits of each vacation request and in all cases the planning commission shall deem the area being vacated to be of value to the public. It shall be incumbent upon the applicant to show that the area proposed for vacation is no longer practical for the uses or purposes authorized, or that other provisions have been made which are more beneficial to the public. In evaluating the merits of the proposed vacation, the planning commission shall consider whether:

1. The right-of-way or public easement to be vacated is being used;

Applicant Comment:

The ROW is not being use

Staff comments:

The rights-of-way petitions for vacation have not been developed.

2. A road is impossible or impractical to construct, and alternative access has been provided;

Applicant Comment:

The terrain will make it difficult to build a road in this area. Alternate access has been provided.

Staff comments:

With the high point on the south end near BG Davis St, road layout could be challenging. Alignment would need to be adjusted to get a road to go through the area for better usage. Cul-de-sac bulbs have been provided to close off the vacated ends of BG Davis St.

3. The surrounding area is fully developed and all planned or needed rights-of-way and utilities are constructed;

Applicant Comment;

Some of the surround roads have been developed. All of the lots affected by this ROW vacation have alternate roads that are constructed and utilities already in place.

Staff comments:

Surrounding area has sparse houses and roads are developed as needed it appears.

4. The vacation of a public right-of-way provides access to a lake, river, or other area with public interest or value, and if so, whether equal or superior access is provided;

Applicant Comment:

Not Applicable.

Staff comments:

Roads petitioned for vacation are interior roads giving no access to areas of public interest or value, thereby a dedication of equal or superior access was not warranted.

5. The proposed vacation would limit opportunities for interconnectivity with adjacent parcels, whether developed or undeveloped;

Applicant Comment:

There is better access from other constructed roads.

Staff comments:

These petitioned vacations do not limit opportunities beyond the plat as they are contained entirely within the subdivision limits.

6. Other public access, other than general road use, exist or are feasible for the right-of-way;

Applicant Comment:

It is unlikely that these ROW's would be used for other public access.

Staff comments:

Having not already been developed, there is no foreseeable future use of these petitioned vacated dedications.

7. All existing and future utility requirements are met. Rights-of-way which are utilized by a utility, or which logically would be required by a utility, shall not be vacated, unless it can be demonstrated that equal or superior access is or will be available. Where an easement would satisfactorily serve the utility interests, and no other public need for the right-of-way exists, the commission may approve the vacation and require that a utility easement be granted in place of the right-of-way.

Applicant Comment:

The utilities are already in place for all affected lots. Future utilities, if needed, would be installed along constructed road corridors.

Staff comments:

The vacation plan was sent to utility companies for their review and comments. All comments received have been included in the staff report and meeting packet that have impact.

8. Any other factors that are relevant to the vacation application or the area proposed to be vacated.

Applicant Comment:

None

Staff comments:

All factors relevant are noted in the staff report.

A KPB Planning Commission decision denying a vacation application is final. A KPB Planning Commission decision to approve the vacation application is subject to consent or veto by the KPB Assembly, or City Council if located within City boundaries. The KPB Assembly, or City Council must hear the vacation within thirty days of the Planning Commission decision.

The Assembly will hear the vacation at their scheduled August 4, 2026 meeting.

If approved, Outlook Subdivision North Fork Micro Ag Addition will finalize the proposed right of way vacations. The plat will be submitted when Assembly consent is given.

STAFF RECOMMENDATIONS
CORRECTIONS / EDITS

Add corrections to be made to drawing as noted

- Add section line easements beyond plat limits and inside cul-de-sacs
- Show separation of the 33' SLE and 30' ROW on west side of BG Davis St
- Carry forward the 20' utility easement from HM2024-17
- Show the lots with labeling to the east across North Fork Rd.
- Add KPB File No. 2026-062

- On the Preliminary Submittal, make reference to KPB 20.10.080 and the date of ROWV approval and Assembly consent.

RECOMMENDATION:

Based on consideration of the merits as per KPB 20.65.050(D) as outlined by Staff comments, Staff recommends APPROVAL as petitioned, subject to:

1. Consent by KPB Assembly.
 2. Compliance with the requirements for preliminary plats per Chapter 20 of the KPB Code including a submittal to and approval by the Plat Committee.
 3. Grant utility easements requested by the utility providers.
 4. Submittal of a final plat within a timeframe such that the plat can be recorded within one year of vacation consent (KPB 20.65.050(I)).
-

KPB 20.65.050 – Action on vacation application

- H. A planning commission decision to approve a vacation is not effective without the consent of the city council, if the vacated area to be vacated is within a city, or by the assembly in all other cases. The council or assembly shall have 30 days from the date of the planning commission approval to either consent to or veto the vacation. Notice of veto of the vacation shall be immediately given to the planning commission. Failure to act on the vacation within 30 days shall be considered to be consent to the vacation. This provision does not apply to alterations of utility easements under KPB 20.65.070 which do not require the consent of the assembly or city council unless city code specifically provides otherwise.**
- I. Upon approval of the vacation request by the planning commission and no veto by the city council or assembly, where applicable, the applicant shall have a surveyor prepare and submit a plat including the entire area approved for vacation in conformance with KPB 20.10.080. Only the area approved for vacation by the assembly or council may be included on the plat. The final plat must be recorded within one year of the vacation consent.**
- J. A planning commission decision denying a vacation application is final. No reapplication or petition concerning the same vacation may be filed within one calendar year of the date of the final denial action except in the case where new evidence or circumstances exist that were not available or present when the original petition was filed.**
- K. An appeal of the planning commission, city council or assembly vacation action under this chapter must be filed in the superior court in accordance with the Alaska Rules of Appellate Procedure.**

The 2019 Kenai Peninsula Borough Comprehensive Plan adopted November, 2019 by Ordinance No. 2019-25. The relevant objectives are listed.

Goal 3. Preserve and improve quality of life on the Kenai Peninsula Borough through increased access to local and regional facilities, activities, programs and services.

- Focus Area: Energy and Utilities

- *Objective A - Encourage coordination or residential, commercial, and industrial development with extension of utilities and other infrastructure.*
 - *Strategy 1. Near – Term: Maintain existing easements (especially section line easements) in addition to establishing adequate utility rights of way or easements to serve existing and future utility needs.*

- *Strategy 2. Near – Term: Maintain regular contact with utility operators to coordinate and review utility easement requests that are part of subdivision plat approval.*
 - *Strategy 3. Near – Term: Identify potential utility routes on Borough lands.*
 - *Housing*
 - *Objective D. Encourage efficient use of land, infrastructure and services outside incorporated cities by prioritizing future growth in the most suitable areas.*
 - *Strategy 1. Near – Term: Collaborate with the AK Department of Transportation, incorporated cities within the borough, utility providers, other agencies overseeing local services, and existing communities located adjacent to the undeveloped areas that are appropriate for future growth, to align plans for future expansion of services to serve future residential development and manage growth.*

Goal 4. Improve access to, from and connectivity within the Kenai Peninsula Borough

- *Focus Area: Transportation*
 - *Objective B. Ensure new roads are developed in alignment with existing and planned growth and development.*
 - *Strategy 2. Near – Term: Establish subdivision codes that dictate road construction standards to accommodate future interconnectivity and/or public safety.*
 - *Strategy 3. Near – Term: Identify areas of anticipated growth to determine future access needs.*

OUTLOOK SUBDIVISION ADD'N #1 AMENDMENT AFFIDAVIT

Plat # 83-123

The above referenced subdivision plat as filed in the office of the District Recorder, Homer Recording District, under plat file #79-22 has been amended as follows:

- 1). The job number was added to the title block.
- 2). Delta angles were added to all curves.
- 3). A radial intersection was shown within Lot 17-A.
- 4). Distances were added to show the length of the curves on the north and south boundary of Lot 17-A.
- 5). The distance along the curve on Alex Shadell Street within Lot 16-A was corrected to read 76.41.
- 6). The acreage of Lot 16-A was corrected to 1.160 acres.
- 7). The distance along the north lot line of Lot 16-A was corrected to read 258.97.
- 8). The distance along the south line of Lots 16-A and 16-E as shown on the detail was corrected to 510.57.
- 9). The distance along the east boundary of Lot 16-D was corrected to 104.79.
- 10) Radial bearings for the North Fork right-of-way curve as shown in Lot 16-D were added.
- 11) The tangent bearing for the north westerly end of the North Fork Road was added.
- 12) Lot lines were labeled "radial or non-radial" as was appropriate.
- 13) The bearing between the section corner common to sections 27, 26, 34, and 35, and the 1/4 corner common to sections 26 and 35 was corrected to read N 89° 58' 28" E, and the distance was added within the drawing depicting the breakdown of Section 35, T4S, R14W, S.M.
- 14) The distance along the east boundary of Section 35, between the 1/4 corner and the northeast section corner was

corrected to read 2638.03.

The above revisions do not materially alter lot areas or rights-of-way or influence any change of ownership, drainage features, or any other item which would adversely affect this or adjacent properties. We therefore are submitting this plat for refiling as corrected.

These revisions constitute the sole changes made to the plat, aside from their notation thereon..
