**ITEM #2 - PRELIMINARY PLAT
GLACIER VIEW SUBDIVISION NO 28**

KPB File No.	2024-041
Plat Committee Meeting:	May 13, 2024
Applicant / Owner:	William Miller of Homer Alaska
Surveyor:	Brett Wilmot / Peninsula Land Surveys
General Location:	Klondike Ave in City of Homer

Parent Parcel No.:	177-101-01 & 177-101-05
Legal Description:	Lots 6 & 7 Block 10 Glacier View Subdivision No 2 Replat of Blocks 8, 9 and 10 HM74-847
Assessing Use:	Residential
Zoning:	Unrestricted
Water / Wastewater	Municipal sewer and water
Exception Request	none

STAFF REPORT

Specific Request / Scope of Subdivision: The proposed plat will combine two lots into one with a size of approximately 12,000 sq ft. (0.275 acres).

Location and Legal Access (existing and proposed):

The plat is located on Klondike Avenue, a 40-foot dedication located in and maintained by the City of Homer. Access to Klondike Ave from the west is achieved via Pioneer Ave to Kachemak Way to Klondike Ave. From the east, Klondike Ave can be accessed via Sterling Highway at approximately mile point 173.6 to Heath St and then to Klondike Ave.

Klondike Ave does not meet the width requirement of KPB 20.30.120 Streets- Width Requirements. Klondike Ave was dedicated as 40' by Glacier View Subdivision No 2 HM 1185. There is no room to gain right-of-way without affecting setbacks and lot size requirements and to cause an irregularity in lines. **Staff recommends:** the Plat Committee concur that an exception is not needed.

There is no vacation being completed by this platting action.

Block length is compliant, being completed by Klondike Ave, Lucky Shot Drive, Bonanza Ave and undeveloped Poopdeck St on the west.

KPB Roads Dept. comments	Out of Jurisdiction: Yes Roads Director: Griebel, Scott Comments: No RSA comments. Located within the City of Homer.
SOA DOT comments	

Site Investigation:

There are structures located on the plat. They are currently located on Lot 6 and when the plat is complete, they will be on Lot 6A. Structures on the east and south appear to be near or possibly over the property lines. Even though this plat does not need to be surveyed, **staff recommends** the surveyor verify these structures are not encroaching on the property lines. If they are encroaching, they should be shown on the plat and a solution noted.

There are improvements to the property also as sanitary sewer and water lines are available to the property.

There are no wetlands shown on the KPB GIS data. *The City of Homer is considered an independent community by the National Flood Insurance Program (NFIP) and is not within the jurisdiction of the KPB Floodplain Management Program. Homer administers their own floodplain management programs. For information on the flood plain regulations and required permits in Homer, please contact the Homer Planning Department at 907-235-3106 or at planning@ci.homer.ak.us.*

There are no steep areas on the plat and the land slopes to the southeast across the lot.

Staff Analysis

The land was originally subdivided by Glacier View Subdivision No 2 HM1185. Glacier View Subdivision No 2 Replat of Blocks 8, 9 & 10 HM847 reconfigured the lots in these three blocks. The current platting action is combining Lots 6 and 7 Block 10 into one large lot.

The plat is supplied with connection to municipal sanitary sewer and water, a soils report will not be needed unless connection is not intended.

Per the preliminary Certificate to Plat, beneficial interest holders do not affect the proposed plat. Notification per KPB 20.10.100 will not be required unless the final Certificate to Plat states the property is affected by beneficial interest holders.

The plat is located in the City of Homer. The plat was approved with non-objection by unanimous consent by the Homer Planning Commission at their regular meeting of August 4, 2023

The subdivision plat has been reviewed and generally complies with the 2019 Kenai Peninsula Borough Comprehensive plan.

Utility Easements

The 20' utility easement in the rear of the lot needs to be labeled and the document creating it needs identified.

The affected utility providers were emailed the subdivision plat public hearing notice as part of the routine notification process. **Staff recommends** to grant utility easements requested by the utility providers or work with the utility providers to obtain approval.

Utility provider review:

GLACIER VIEW SUBDIVISION No 2

LOCATED IN

E 1/2 NW 1/4 SEC. 20, T.6S. R.15W. SM

DRAWN BY HEATH 12-12-53 SCALE 1"=200'

SUPERSEDES PLAT PATENTED SEP 12 1951

VOTE. NO. VENUTI, HIGHLAND, BARNWELL, CONLEY, STARK.

Motion failed.

Commissioner Stark noted that the Commission is voting this down due to the ordinance and code being disparate and it requires reconciling to be in conformance.

HIGHLAND/VENUTI MOVED TO POSTPONE STAFF REPORT 23-48 AND ORDINANCE 23-21(S) TO THE NEXT MEETING FOR DISCUSSION.

There was no further discussion.

VOTE. NON-OBJECTION. UNANIMOUS CONSENT.

Motion carried.

Vice Chair Barnwell called for a five minute recess at 7:25 p.m. The meeting was called back to order at 7:32 p.m.

9. PLAT CONSIDERATION

A. Staff Report 23-050, **Glacier View Subdivision**, Vacate an Existing Lot Line to Create a Larger Lot

Vice Chair Barnwell introduced the item by reading of the title and deferred to City Planner Foster.

City Planner Foster reviewed Staff Report 23-050 for the Commission. He noted that the Plat did not meet the following requirements:

- 15 foot utility easement, if the applicant cannot meet that requirement to request an exception.
- If additional information was going to be added to the subdivision title since it appears incomplete; and
- The plat does not indicate the city water and sewer mains which is required.

City Planner Foster read the recommendation of approval with the comments into the record.

There was no applicant present.

Vice Chair Barnwell opened the Public Comment period.

Scott Adams, city resident, questioned why the presented easements of 10 feet on one side for sewer and 10 feet for utilities was not adequate since some places it has to be 15 feet in one straight area or one side of the lot.

City Planner Foster provided rebuttal noting that page 52 of the packet depicted the 10 foot sewer easement and they can see the 20 foot future building limit line and that is along Klondike Avenue and at the rear of the lot is the 10 foot utility easement but city code requires a 15 foot utility easement and the surveyor did not

demonstrate on the plat why they cannot do that or request an exception. It is not that the exception is not allowed but they did not demonstrate why it would be needed or even request one.

He then responded to questions regarding the following:

- Which side ends up containing the 15 foot easement and who makes that decision; there may be a particular reason why the easement is only 10 feet there but the surveyor has not provided an explanation. It could very well be historical in nature but it still must be shown on the plat.
- The applicant is the owner of both plats and the structure is a garage so the applicant is vacating a lot line but structures are not typically shown on plats. Encroachment is not at issue with this action.
- Since the lots are owned by one owner and we do not know what the future plans are for the lot after the vacation, but they may have plans for future development. But instead of a vacant lot and single residence we now have a single residence on a single lot with the potential for infill.

Vice Chair Barnwell requested a motion and second.

HIGHLAND/VENUTI MOVED TO ADOPT STAFF REPORT 23-050 AND RECOMMEND APPROVAL OF THE PRELIMINARY PLAT TO VACATE A LOT LINE TO CREATE ONE LARGER LOT FROM TWO SMALLER LOTS WITH COMMENTS ONE THROUGH THREE THAT HAS ALREADY BEEN READ INTO THE RECORD.

1. RECOMMEND NOTING A 15-FOOT-WIDE UTILITY EASEMENT ON THE PLAT OR PROVIDE AN EXPLANATION ON HOW THIS REQUIREMENT CANNOT BE MET AND REQUEST AN EXCEPTION.
2. DOES THE SURVEYOR INTEND ON ADDING A NUMBER TO THE SUBDIVISION TITLE?
3. RECOMMEND THE SURVEYOR PROVIDE THE APPROXIMATE LOCATION OF KNOWN EXISTING MUNICIPAL WASTEWATER AND WATER MAINS, AND OTHER UTILITIES WITHIN THE SUBDIVISION AND IMMEDIATELY ABUTTING THERETO OR A STATEMENT FROM THE CITY INDICATING WHICH SERVICES ARE CURRENTLY IN PLACE AND AVAILABLE TO EACH LOT IN THE SUBDIVISION TO THE PRELIMINARY PLAT.

There was no further discussion.

VOTE. NON-OBJECTION. UNANIMOUS CONSENT.

Motion carried.

B. Staff Report 23-051, Bidarki Creek No. 5, Subdivide Two Existing Lots in Four Lots

Vice Chair Barnwell introduced the item by reading of the title and deferred to City Planner Foster.

City Planner Foster provided a summary of Staff Report 23-051 noting that this was an amended application from the one presented to the Commission several months ago. He reported that the applicant has decided to divide two existing lots into four lots.

Tom Latimer, Surveyor/Applicant and McKennen and Rachel Lamb spoke to the application noting that it was pretty straight forward, they worked very closely with Public Works Director Keiser and addressing the neighboring property owners concerns. Mr. Latimer apologized for the oversight of the water and sewer utilities and has submitted a corrected plat to the Kenai Peninsula Borough.
