HOSPITALS

Timely & effective care

These measures show how often or how quickly hospitals provide care that research shows gets the best results for patients with certain conditions, and how hospitals use outpatient medical imaging tests (like CT scans and MRIs). This information can help you compare which hospitals give recommended care most often as part of the overall care they provide to patients.

**Providence Alaska
Medical Center**

3200 Providence Drive
Anchorage, AK 99508

Unplanned hospital visits

Returning to the hospital for unplanned care disrupts patients' lives, increases their risk of harmful events like healthcare-associated infections, and costs more money. Hospitals that give high quality care can keep patients from returning to the hospital and reduce their stay if they have to come back.

Alaska's Health Care Price Transparency Law

Alaska's new health care price transparency law ([AS 18.23.400](#)) went into effect January 2019. The law requires health care providers and facilities to post the prices of their most common procedures. The State of Alaska's Department of Health and Social Services will allow health care providers and facilities more time to comply with the law.

Pursuant to the enforcement discretion granted to the Alaska Department of Health and Social Services (DHSS) in AS 18.23.400(k), DHSS has announced the following regarding the posting and publication of health care procedure prices and provision of good faith estimates under AS 18.23.400:

- › DHSS will not impose a penalty on any health care provider or health care facility for failure to comply with AS 18.23.400(a) – (f), requiring price collection, posting, and reporting to DHSS, beginning January 1, 2019 and continuing until implementing regulations are in effect.
- › DHSS expects that health care facilities, providers, and insurers will comply with AS 18.23.400(g)-(i), requiring provision of good faith estimates on request to patients, beginning on January 1, 2019. However, DHSS will not impose a penalty on any health care facilities, providers, or insurers for failure to comply with AS 18.23.400(g)-(i) until implementing regulations are in effect.

Hospital Price Transparency

Hospital price transparency helps Americans know the cost of a hospital item or service before receiving it. **Starting January 1, 2021**, each hospital operating in the United States will be required to provide clear, accessible pricing information online about the items and services they provide in two ways:

1. As a comprehensive machine-readable file with all items and services.
2. In a display of shoppable services in a consumer-friendly format.

This information will make it easier for consumers to shop and compare prices across hospitals and estimate the cost of care before going to the hospital.

CMS plans to audit a sample of hospitals for compliance starting in January, in addition to investigating complaints that are submitted to CMS and reviewing analyses of non-compliance, and hospitals may face civil monetary penalties for noncompliance. [Access a list of hospitals that have been issued CMPs.](#)

The Centers for Medicare & Medicaid Services yesterday announced the first civil monetary penalties under its hospital price transparency rule, fining two hospitals for alleged failure to make public their list of standard charges.

The rule took effect Jan. 1, 2021. It requires hospitals to disclose the rates they privately negotiate with health plans, as well as their self-pay and charge master rates, and provide an online patient cost estimator tool or negotiated rate information for at least 300 “shoppable” services, or face penalties ranging from \$300 to \$5,500 per day, depending on the hospital’s size.

Enforcement Actions

Below is a list of civil monetary penalty (CMP) notices issued by CMS.

Date Action Taken	Hospital Name	CMP Amount	Effective Date
2022-06-07 (PDF)	Northside Hospital Atlanta	\$883,180.00	2021-09-02
2022-06-07 (PDF)	Northside Hospital Cherokee	\$214,320.00	2021-09-09

Insurance: Self-Pay

Estimate of Billed Charges (25% Self-Pay Discount): \$4,264.46

This patient-share estimate is an estimate of your costs and is not a contract or guarantee of the actual costs for the services that may be provided to you. The prices on which this estimate is based are subject to change at any time without notice. This information is based on the insurance information you provided on 10/19/2022 and price information last updated on 9/2/2022. Always check with your health insurance company for the most accurate out-of-pocket cost for a procedure or service.

The estimate above is not a quote nor a guarantee of the charges for a service or the amount that you will owe. If you have insurance, your insurance policy coverage (including deductibles, co-pay, co-insurance and out-of-pocket maximums) will determine the amount you owe.

You have the right to receive a “Good Faith Estimate” explaining how much your medical care will cost

Under the law, health care providers need to give **patients who don't have insurance or who are not using insurance** an estimate of the bill for medical items and services.

- You have the right to receive a Good Faith Estimate for the total expected cost of any non-emergency items or services. This includes related costs like medical tests, prescription drugs, equipment, and hospital fees.
- Make sure your health care provider gives you a Good Faith Estimate in writing at least 1 business day before your medical service or item. You can also ask your health care provider, and any other provider you choose, for a Good Faith Estimate before you schedule an item or service.

- If you receive a bill that is at least \$400 more than your Good Faith Estimate, you can dispute the bill.
- Make sure to save a copy or picture of your Good Faith Estimate.

For questions or more information about your right to a Good Faith Estimate, visit www.cms.gov/nosurprises or call 1-800-633-4227.

39th Rotary Health Fair

- Four weeks of discounted blood draws daily at the hospital's conference room. Appointments run through Friday Nov. 4; get a free flu shot at time of appointment!
- Return of the in-person fair on Saturday, Nov. 5 at Homer High School; more than 50 exhibitors signed up to participate.
- We have served over 400 community members already, and expect to serve at least 900!

39TH ANNUAL ROTARY HEALTH FAIR

IT'S YOUR LIFE TAKE A DAY TO BE WELL

FREE ADMISSION!

FREE HEALTH SCREENINGS - vision, blood pressure, lab interpretation, grip strength, mobility, speech & swallowing, memory testing and more!

50+ EXHIBITORS OF HEALTH & WELLNESS RESOURCES, INFO AND SERVICES!
Covering cancer, nutrition, addiction, eating disorders, water safety, heart health, senior services and more.

PERFORMANCES - Circus Arts, Drumming, High School Swing Choir & more!

INSTRUCTIONAL DEMOS - Narcotic training, Stop the Bleed, CPR & more!

DOOR PRIZES!
INCLUDING 2000 BOTTLES OF UTILITY, GINGERALE & J&J CARDS!

200 FREE FLU SHOTS
PROVIDED BY SVT HEALTH & WELLNESS!

"NOLAN THE COLON" - Walk through this giant inflatable model and learn more about the value of screenings!

HALLOWEEN CANDY EXCHANGE - Kiddos ages 10 & under can bring their leftover Halloween candy to exchange for **FABULOUS PRIZES!**

Get your deeply discounted blood tests in advance through Nov. 4 at South Peninsula Hospital—bring your results or pick them up at the fair to review with a medical professional!

SCHEDULE YOUR APPOINTMENT (REQUIRED) & READ ABOUT AVAILABLE TESTS AT ROTARYHEALTHFAIR.ORG.

BLOOD DRAWS ARE NOT OFFERED AT THE FAIR

Sponsored by Homer-Kachemak Bay Rotary Club in cooperation with South Peninsula Hospital.
