- ▲ 1/2" x 4' rebar with plastic cap, set.
- SW - indicates swamp
- (-) indicates record information KRD 2001-74.
- ! - indicates record information KRD 2018-65.

NOTES

1. A building setback of 20' from all street ROWs is required unless a lesser standard is approved by a resolution of the appropriate planning commission. Front 10' of building setback is also a utility easement, as is the entire setback within 5' of side lot lines. Several existing structures are located within the building setback and utility easement as shown, which predate the limitations creation and are not subject to them. Any additional, new, or replacement construction to the structures will be subject to the 20' building setback and easement requirements.
2. No permanent structure shall be constructed or placed within a utility easement which would interfere with the ability of a utility to use the easement.
3. This property is in benefit of a Right of Way Agreement per KRD Book 267 Page 713, a Right of Way Limit per KRD Book 580 Page 987, a Private Access Agreement granted in KRD Book 589 Page 625, a Private Access Agreement granted in KRD Book 615 Page 743 and amended and re-installed in Book 636 Page 633, and a Private Access Easement granted in KRD Book 636 Page 947, all located along St. Theresa Rd.
4. Existing overhead powerline is the centerline of a 20' wide utility easement, including guy wires and structures, granted by KRD 2001-74.
5. Roads must meet the design and construction standards established by the borough in order to be considered for certification and inclusion in the road maintenance program (KPB 20.60.170(B)).
6. The lake meander line shown is for area computation only, the line corners being on the extensions of the side lines and the intersections with the natural meanders.
7. Acceptance of this plat by the borough does not indicate acceptance of any encroachments.
8. The borough will not enforce private covenants, easements, or deed restrictions per (KPB 20.60.170(B)).
9. Any person developing the property is responsible for obtaining all required local, state, and federal permits, including a U.S. Army Corps of Engineers wetlands determination, if applicable.
10. Corner not set, falls in line. (Latter labelled with corner nomenclature noted to tree).
11. Existing overhead powerline is the centerline of a 30' wide utility easement, including guy wires and anchors, granted by this plat.
12. All bearings and distances are measured and agree with record except as noted otherwise.
13. The existing structures as noted in plot note 1, were granted approval to the location shown in the drawing in lots 3 and 12 by the plat committee at the meeting of 27 May, 2023 for encroachments into the 20' Building Setback and 10' Utility Easement.

PLAT APPROVAL

This plat was approved by the Kenai Peninsula Borough Planning Commission at the meetings of 27 January, 2025 and 27 May, 2025.

KENAI PENINSULA BOROUGH

By: _____
Authorized Official Date

CERTIFICATE OF ACCEPTANCE

WASTEWATER DISPOSAL

20.40.040
Soil conditions, water table levels, and soil slopes in this subdivision have been found suitable for conventional on-site wastewater treatment and disposal systems serving single-family or duplex residences. An Engineer's Subdivision and Soils is available from the Kenai Peninsula Borough.
Any other type of on-site wastewater treatment and disposal system must be designed by a qualified engineer, registered to practice in Alaska, and the design must be approved by the Alaska Department of Environmental Conservation.
