Subject: Ord 2014-38 Shortened hearing schedule

(Please include as public comment at the January 6 Assembly meeting)

I heartily support Ord 2014-38 allowing the public hearing for ordinances to more closely follow introduction. Two weeks is sufficient time for most people to think about most ordinances. When more time is needed for controversial issues, the Assembly can always postpone and schedule another hearing. Unnecessary delay is frustrating to departments and service areas trying to do good work.

Thank you for your consideration,
Mary Griswold
