---

I am writing in regard to the public hearing (10/9/2017) concerning a Marijuana license for the above:

The business in question is to be located at the head of a narrow street (and crest of a hill) where even now they often have to park in the road (Wilson St) due to lack of parking. Likewise they have to back across the street to leave as no turn around is available, a situation which will only worsen w/ a business there.

The newly constructed building intended to house this enterprise is very close to the Wilson St. right of way and is similarly situated to the Sterling Hwy making security an issue of some difficulty. This exposure and the value placed on the contents would certainly attract criminal elements to the neighborhood.

Marijuana has been consumed at this residence already, it is beyond reason to suppose that w/ an abundance there that it would cease, rather that it would increase to the detriment of the several preschool age children living there (as well as those smoking it).

The business applicants not being the property owner and residing elsewhere concerns me as they would have no vested interest in the neighborhood or their impact upon it.

In as much as I reside in immediate proximity to the proposed facility I proffer the above in hopes that it will serve to illustrate the illconceived location of this establishment in such a way that you would protest the issuance of their license.

Sincerely,

Gary Jefferson  
29665 Wilson St.  
Soldotna, AK
