President Brent Johnson and Assembly Members,

I find Carol Beecher's powerpoint on elections very good and educational. On the state's website under elections they have a great informative page - <https://www.elections.alaska.gov/ballot-counting-process/>

I know the Borough has great information too.

As an election worker I would like to see handouts included with our elections materials to put on the tables that review ballot security, the machines, etc. The state election pamphlet has one page addressing this. Having colorful flyers on the election tables would be much better. I encourage the Borough elections office to consider providing such materials at polling places to help people better understand the safety and security of their ballots.

Thanks so much,
Therese Lewandowski
