Subject: Ord 2015-03 repealing seasonal exemption from sales tax
Date: Wednesday, January 28, 2015 6:39:20 PM

I support funding education to the cap, but taxing food is regressive. Providing seasonal relief is a big help to full-time borough residents. Raising the limit of individual sales subject to tax would be a better solution. I would appreciate your providing information showing the revenue potential from raising the sales tax limit to different amounts.

Thank you for your consideration.
