Dear Commissioner

As a long time resident Kenai Peninsula Borough I have a question?

Are the Coho or Sockeye species of the upper Cook Inlet a stock of concern for ADF&G?

In advance I thank you for direct your response

Humbly

Sam, the only SOC for sockeye and/or coho salmon in UCI is the Yentna River sockeye salmon. The BOF designated it a SOC at the "yield concern" level a number of years ago.....JR
