I have also been a commercial fisherman for 37 years and bring that perspective to the table as well.		
For the last 15 to 20 years I have been active in watershed quality issues through my involvement with the Kenai Watershed Forum		
What are the land use and planning issues in the Kenai Peninsula Borough?		
Anadromous fish habitat protection continues to be an active and contentious issue.		
Industrial and municipal development and zoning (or lack thereof) are also issues that are growing as a new boom in oil and gas development takes off.		
What would you like to see done with Borough owned lands?		
I would like to see scientific and thoughtful planning for land use to protect the commons and plan for sustainable development for future generations.		

Have you, or do you currently, serve on other Kenai Peninsula Borough commissions, boards, or task forces? I have not in the past and do not now serve on such boards.
