RE: Mayor's Report Item
KESA King Vision Video Laryngoscope provided to APFESA

In mid-February, KESA was able to provide two sets of quality medical equipment to APFESA in the form of video equipped laryngoscope devices. This included peripheral attachments important to use of the equipment. Replacement value is estimated to be about \$1,390.00 per set with peripherals. This opportunity arose during discussions in cooperative EMS training sessions between departments, and may have been difficult to obtain otherwise.

Regular training of personnel is scheduled, and Dr. Cooper will provide guidance, input and assistance for end users to become and remain proficient in the use of this respiratory emergency response equipment. He will review and approve written procedures for APFESA prior to them being put into service.

A letter of appreciation from Anchor Point to KESA from Assistant Chief Doug Loshbaugh is attached.

Chief Bob Ciccarella, Chief
Steve Boyle, Deputy Chief
Kachemak Emergency Service Area
53048 Ashwood Ave.
Homer, Alaska 99603

Dear Chief Ciccarella and Deputy Chief Boyle,

On behalf of our volunteers, I would like to thank you very much for the donation of the two KingVision video laryngoscopes Joe Sallee dropped at our station today. While airway control is key to good patient outcomes, intubation can be a challenge. Video laryngoscopes have been on my wish list, but due to budget considerations they would likely have remained beyond our reach for some time. These will be an asset to Anchor Point Fire & EMS and improve patient care. Thanks again for your help! It's always a pleasure to work with you.

Sincerely,

A handwritten signature in cursive script, appearing to read "Doug Loshbaugh".

Doug Loshbaugh
Assistant Chief
