# 2026-2027 Upper Cook Inlet Finfish Meetings

The Kenai Peninsula Economic Development District supports and advocates for public engagement processes and opportunities for our stakeholders and communities. We formally and respectfully request the Alaska Fish and Game Board of Fish to hold the Upper Cook Inlet Finfish Regulatory meetings for 2026-2027 on the Kenai Peninsula, specifically in Soldotna. This proposal request will outline the history, accommodation, logistic resources, and outlay of permit holders and business operators, as well as resolutions from our municipalities and borough communicating the need for the meeting to be held in Soldotna.

As the Board of Fish makes decisions on fish allocation and management for the commercial and sportfishing industries in the region, it is vital to hold the meeting where the stakeholders, business owners, and waters are. For context, it has been over a decade since the Board of Fish has held any public meetings in this region; the last regular Upper Cook Inlet Finfish meeting was in 1999 with in-person BOF work sessions in 2016 and an Upper Cook Inlet Task Force meeting in 2013. KPEDD respectfully requests the Board of Fish to see this as an opportunity to re-engage and re-establish connections through this public process to proceed with its work to make sound judgments and well-informed decisions and develop comprehensive policy with viewpoints and local perspectives considered.

Director Cassidi Cameron  
Kenai Peninsula Economic  
Development District

# Cook Inlet Stakeholders

## INDIVIDUALS AND ENTITIES AFFECTED BY MEETING DECISIONS

Permit/License Type Active in 2023	# Registered
Finfish Guides & Charters	197
Drift Gillnets	356
Set Gillnets	672
Purse Seine	68
<b>Total</b>	<b>1,293</b>

85% of active set net permits and 75% of active drift gillnet permits are owned by Alaska residents.

Regional stakeholders require reasonable access to the Upper Cook Inlet Finfish (UCI) Regulatory Meetings, as they are directly affected by decisions made by the Board of Fish. Holding the two-week Board of Fish UCI meetings solely in Anchorage leads to disproportionate representation of special-interest groups that have the resources to attend the meetings and underrepresentation of individual residents of the Kenai Peninsula. Government officials and representatives of these groups have the ability to travel to the Peninsula for meetings as their costs are borne by the organization rather than the individual. The fluidity of these meetings also makes it difficult for residents to make adequate travel accommodations to provide public testimony.

The Kenai Peninsula Economic Development District will act as a point of contact, in partnership with the Kenai Peninsula Borough and regional municipalities, to assist in identifying resources and cost savings for the State. KPEDD will strive to ensure that logistical considerations, adequate public facilities, transportation, lodging and experience are met with the upmost care.

# Upper Cook Inlet

## REGIONAL SIGNIFICANCE

- The Kenai Peninsula waterways of the Kenai, Kasilof, and Susitna Rivers, and Fish Creek are the entry points to major sockeye salmon systems in Upper Cook Inlet

---

- The Kenai River and its lakes are the primary sockeye salmon producing systems in the Cook Inlet

---

- The Kasilof River and Tustumena Lake is the second-most (sometimes the third-most) productive sockeye salmon producing system in Cook Inlet

---

- Commercial, sport, subsistence and personal use fisheries are essential to the Kenai Peninsula Economy

---

- The value and economic impact goes far beyond the number of permit holders in the region

---

**Commercial fisheries land a combined average of 31.3 million pounds of salmon annually, valued on average at 50.1 million USD annually**

The regulatory authority must work alongside industry to protect the Kenai Peninsula's natural resources, communicate on regulatory needs, and receive necessary stakeholder engagement to find best-suited options for the highest economic returns on investment revolving around the Upper Cook Inlet Salmon system. Holding the 2026 and 2027 Upper Cook Inlet Finfish Regulatory Meetings in Soldotna would provide resource stakeholders with the opportunity to be present at public discussions affecting the management of their resources.

# SOLDOTNA FIELD HOUSE

## SIZE

- NEWLY BUILT 40,500 SQ FT MULTI-PURPOSE FACILITY
- 215' X 115' MEETING AREA WITH REMOVABLE TURF SYSTEM
- DIVIDER CURTAINS ALLOWING FOR MULTIPLE MEETING SPACES
