**Landowner:** Zan Inc.  
**Parcel ID#:** 017-160-41  
**Legal Description:** T 6N R 12W SEC 14 SEWARD MERIDIAN KN PORTION OF GOVT LOT 106 LYING EAST OF NORTH KENAI RD

BACKGROUND INFORMATION: On October 26, 2020, the borough received notification from the Alcohol and Marijuana Control Office (AMCO) that the applicant had initiated the application to the state for a Marijuana Concentrate Manufacturing Facility license. On October 29, 2020, the applicant supplied the borough with a signed acknowledgement form and a site plan of the proposed manufacturing facility on the above-described parcel. The AMCO notified the borough that the application was complete on June 4, 2021. Staff has reviewed the completed license that has been submitted to the state and the site plan submitted to the borough and has found the following concerning the standards contained in KPB 7.30.020:

1. The Borough finance department has been notified of the complete application and they report that the applicant is in compliance with the borough tax regulations.
2. Borough planning department staff has evaluated the application and has determined that the proposed facility will be located greater than 1,000 feet from any school.
3. Borough planning department staff has evaluated the application and has determined that the proposed facility will be located greater than 500 feet from all recreation or youth centers, and all buildings in which religious services are regularly conducted, and all correctional facilities.
4. The proposed facility is not located within a local option zoning district.
5. The proposed facility is located where there is sufficient ingress and egress for traffic to the parcel.
  - The site plan indicates that the approach is or will be constructed to a minimum width of 24 feet where it accesses the right-of-way.
  - The signed acknowledgement form indicates that there will not be any parking in borough rights-of-way.
  - The site plan indicates a clear route for delivery vehicles which allows vehicles to turn safely.
  - On-site parking and loading areas are designated at a location that would preclude vehicles from backing out into the roadway.
6. The signed acknowledgement form indicates that the proposed facility will not conduct any business on, or allow any consumer to access, the retail marijuana store's licensed premises, between the hours of 2:00 a.m. and 8:00 a.m.

KPB 7.30.020(E) allows the recommendation of additional conditions on a license to meet the following standards:

- protection against damage to adjacent properties,
- protection against offsite odors,

- protection against noise,
- protection against visual impacts,
- protection against road damage,
- protection against criminal activity, and
- protection of public safety.

The Alaska Marijuana Control Board will impose a condition that a local government recommends unless the board finds the recommended condition is arbitrary, capricious, and unreasonable (3 ACC 306.060b). If the Planning Commission recommends additional conditions, additional findings must be adopted to support the conditions.

PUBLIC NOTICE: Notice of the application was mailed on June 23, 2021, to the 19 landowners of the parcels within 300 feet of the subject parcel. Public notice of the hearing on the application was published in the July 1, 2021 & July 8, 2021 issues of the Peninsula Clarion.

**New Application**       **New Onsite Consumption Endorsement Application (Retail Only)**

AMCO has received a complete application for a marijuana establishment within your jurisdiction. This notice is required under 3 AAC 306.025(d)(2). Application documents will be sent to you separately via ZendTo.

To protest the approval of this application pursuant to 3 AAC 306.060, you must furnish the director **and** the applicant with a clear and concise written statement of reasons for the protest within 60 days of the date of this notice, and provide AMCO proof of service of the protest upon the applicant. If the protest is a “conditional protest” as defined in 3 AAC 306.060(d)(2) and the application otherwise meets all the criteria set forth by the regulations, the Marijuana Control Board may approve the license, but require the applicant to show to the board’s satisfaction that the requirements of the local government have been met before the director issues the license.

3 AAC 306.010, 3 AAC 306.080, and 3 AAC 306.250 provide that the board will deny an application for a new license if the board finds that the license is prohibited under AS 17.38 as a result of an ordinance or election conducted under AS 17.38 and 3 AAC 306.200, or when a local government protests an application on the grounds that the proposed licensed premises are located in a place within the local

government where a local zoning ordinance prohibits the marijuana establishment, unless the local government has approved a variance from the local ordinance.

This application will be in front of the Marijuana Control Board at our June 23-24, 2021 meeting.

Sincerely,

A handwritten signature in black ink, appearing to read "Glen Klinkhart". The signature is stylized and cursive.

Visitors will be required to show valid, government-issued, photo identification before being allowed into the licensed premises. With the exception of law enforcement, AMCO enforcement, or other authorized individuals, visitors must schedule appointments ahead of time in order to be admitted into the building. If necessary, law enforcement will be contacted to enforce this policy.

## Section 3 – Security

**Restricted Access Areas (3 AAC 306.710):**

**3.1. Describe how you will prevent unescorted members of the public from entering restricted access areas:**

Purgatory Cannabis will post a sign at all entries stating "No one under 21 years of age allowed" and "Restricted Access Area - Visitors Must Be Escorted." All doors will have commercial-grade locks and remain locked at all times. All employees are required to wear ID badges and any visitors in the facility are required to wear visitor badges. Surveillance cameras will continuously monitor all activities in the restricted access areas, as well as the exterior of the premises.

**3.2. Describe your recordkeeping and processes for admitting visitors into and escorting them through restricted access areas:**

With the exception of regulatory agents, AMCO Enforcement, or law enforcement, all visitors must be pre-approved and pre-scheduled to enter the facility. Visitors will be required to show valid, government-issued photo identification, that shows that they are 21 years of age or older. All visitors will be given a visitor's badge, which they must display on their person at all times. Employees will be required to display employee ID badges that feature their photo, name, company name, logo, and license number. Visitors will sign into a visitor's log, which will show the date, time, and purpose [if necessary] of their visit. All visitors will be escorted by a licensee or an employee at all times, with no more than five (5) visitors per each escort. At the conclusion of the visit, visitors shall return their badges and leave the premises. Visitor logs will be stored as an official business record and will be readily available for review by AMCO Enforcement and law enforcement.

3.4. Exterior lighting is required to facilitate surveillance. Describe how the exterior lighting will meet this requirement:

Purgatory Cannabis will ensure that exterior lighting fixtures will be installed to keep the premises well lit, and facilitate security surveillance, for a distance of at least 20 feet from all outer perimeters of the building. Bright lighting will be used to assist surveillance cameras in recording all entry points to the building. The lights will be installed with protective coverings and at an inaccessible height to discourage vandalism and prevent obstruction. The exterior lighting will be frequently checked by a licensee or designated employee to ensure that all lights remain operational and undamaged.

# Form MJ-01: Marijuana Establishment Operating Plan

**3.5. An alarm system is required for all license types that must be activated on all exterior doors and windows when the licensed premises is closed for business. Describe the security alarm system for the proposed premises, explain how it will meet all regulatory requirements, and outline your policies and procedures regarding the actions to be taken by a licensee, employee, or agent when the alarm system alerts of an unauthorized breach:**

Purgatory Cannabis will either install a regulatory alarm system or contract a third-party security agency for installation and maintenance. The alarm system will be set up with sensors on every exterior door and window, which will set off an audible alarm when disturbed, as well as notify the licensee via an electronic alert sent to their phone. If needed, local law enforcement will be contacted. These alarms will be active at any time that the facility is closed. The first licensee or employee to arrive in the morning will deactivate the alarm system for business hours. The last licensee or employee to leave the premises will activate the alarm system. In the case of an unauthorized breach, the employees will evacuate the building to a pre-determined location, if it is safe and necessary to do so. A designated employee will take a head count of all employees and any visitors that may have been on the premises to check that everyone is accounted for. Employees will await for any instruction from law enforcement and must comply with all directives. Once it is deemed safe to do so, employees will return to the premises and inspect for any property damage or theft and take inventory. In the case that any property damage or theft occurs, all necessary documentation will be promptly submitted to law enforcement officials and AMCO Enforcement. In accordance with AMCO regulation, any event that occurs on the licensed premises that involves local law enforcement will be reported to AMCO Enforcement via email within 24 hours.

A Licensee or a designated employee will be required to complete weekly inventory counts to ensure all business records match Metrc generated reports. Weekly counts are documented and maintained as business records, and will be available to any AMCO Enforcement Official or local law enforcement officer who wishes to view them, for five years. If it is suspected that a theft, inversion, or diversion has occurred, employees will notify the licensee immediately. Employees will be trained extensively in spotting theft, diversion, and inversion of marijuana. If an employee has been determined to be stealing marijuana or marijuana product, law enforcement and AMCO will be notified immediately. Thefts will be recorded in Metrc and the stored business records.

**3.7. Describe your policies and procedures for preventing loitering:**

Purgatory Cannabis will promote business practices that discourage loitering. A Licensee or a designated employee will perform random perimeter checks to ensure that there are no loiterers on the premises. All loiterers will be asked to leave and escorted off the premises. If loiterers do not comply, law enforcement will be contacted for back up. In any event that law enforcement is contacted Purgatory Cannabis will notify AMCO electronically as soon as possible but in any event, not more than 24 hours. In addition, the exterior of the building will be well-lit and equipped with 24/7 video surveillance and signs that say "No Loitering". Signs will also be posted that bring notice to the video surveillance. Purgatory Cannabis designated employees and the licensee will view security footage to identify loiterers and potential vandals. ### Section 1 – Establishment Information

Enter information for the business seeking to be licensed, as identified on the license application.

Licensee:	Leaf & Larf, LLC	MJ License #:	27520

### Section 2 – Overview of Operations

2.1. Provide an overview of your proposed facility’s operations. Include information regarding the intake, flow, and transfer of marijuana, marijuana concentrate, and marijuana product at and from your premises:

All marijuana and marijuana products (for use in production of concentrates) will be tracked in Metrc from its intake at the facility, to its use in a manufactured product or disposal, to its transfer to another licensed facility. All shipments of marijuana or marijuana product that arrive at the facility will be first inspected by a licensee or designated employee before being accepted and entered as inventory. The shipment contents will be weighed with scales in order to reconcile with the transport manifest, shipment labels and packaging labels to ensure consistency. Any shipments with discrepancies will be rejected. Shipments that pass initial inspection will be accepted into the facility, immediately entered into Metrc and added to the inventory log. At the end of each business day, a Purgatory Cannabis Licensee or a designated employee will reconcile each transfer to or from another licensed facility with Metrc and the inventory on hand to ensure consistency and to resolve discrepancies immediately. A random sample(s) of each concentrate manufactured at the facility will be sent to a licensed testing lab before being transferred to another licensed facility, the remainder of the production lot will be segregated from all other product until the testing results are received. Once passing testing results are received from the testing lab, marijuana products will be packaged and labeled in compliance with AMCO regulations. The packaged products will then be transported by a Purgatory Cannabis employee who holds a valid marijuana handler permit, or by a third party transport company with valid marijuana handler permits. All transfers will be entered into Metrc, which will generate a trip manifest that will be sent with each shipment as well as stored on site as a business record.

4.2. Describe how you will store, manage, and dispose of any solid or liquid marijuana waste, including expired or outdated marijuana or marijuana product, in compliance with any applicable laws. Include details about the material(s) you will mix with ground marijuana waste and the processes that you will use to make the marijuana waste unusable for any purpose for which it was grown or produced:

Purgatory Cannabis anticipates the following marijuana plant and product waste at the manufacturing facility; (1) contaminated or infected marijuana or marijuana products (2) marijuana or marijuana products (concentrates) deemed by the licensee or a manager as unfit for sale or consumption for any reason (3) marijuana product that fails lab testing (4) marijuana plant waste created during the extraction process (5) marijuana or marijuana product that becomes expired (6) other marijuana or marijuana product waste as determined by the MCB. Once marijuana or marijuana product is deemed as waste, it will be separated from all other marijuana and marijuana products and securely stored in locked bins on the licensed premises. At least three days prior to rendering the waste unusable, the waste will be recorded in Metrc and an email notification will be sent to AMCO Enforcement. All solid marijuana plant waste (plant matter waste from the extraction process such as plant matter that is pressed/squeezed to extract oil) and marijuana product waste will be ground and mixed with other solid compostable or non-compostable waste such as paper waste, plastic waste, cardboard waste, food waste, yard waste, vegetable grease or oil and soil until the mixture is no more than 50% marijuana waste. Liquid marijuana waste, such as concentrates, will be mixed with at least equal parts of non-marijuana waste and stored away from all other marijuana and marijuana products inside the facility in a locked waste container. The unusable waste will then be transferred to an outside waste storage container, which will transported to a landfill via a designated employee or a contracted local waste services truck. The logged information will be securely stored and will be made available, upon request, to AMCO at any time.

Lessor may, in the alternative, continue this Lease in effect, as long as Lessor does not terminate Lessee's right to possession, and Lessor may enforce all of Lessor's rights and remedies under the Lease, including the right to recover the rent as it becomes due under the Lease. If said breach of Lease continues, Lessor may, at any time thereafter, elect to terminate the Lease. These provisions will not limit any other rights or remedies which Lessor may have.

(v) If the special allocations result in Capital Account balances that are different from the Capital Account balances the Members would have had if the special allocations were not required, the Company will allocate other items of income, gain, loss and deduction in any manner it considers appropriate to offset the effects of the special allocations on the Members' Capital Account balances. Any offsetting allocation required by this paragraph is subject to and must be consistent with the special allocations.
