I am opposed to the Clarence Drive road improvement assessment. I am opposed for both financial and safety reasons. The cost would be an unnecessary financial burden for my family. Many individuals already drive at high speeds on the gravel road, paving may increase the unsafe speeds. I live towards the start of Clarence and near a corner, paving may increase the safety risks for my family/pets and for the whole neighborhood as well. Clarence Drive is out of town and homeowners purchased their lots knowing they were on a gravel road. The borough maintains the gravel road well and paving is an unnecessary expense for the borough and the home owners.
