Subject: <EXTERNAL-SENDER>Ord 2023-28 new borough logo comment for assembly packet

CAUTION: This email originated from outside of the KPB system. Please use caution when responding or providing information. Do not click on links or open attachments unless you recognize the sender, know the content is safe and were expecting the communication.

(Please include this in the next assembly packet)

Please postpone Ord 2023-28 to the following meeting to provide time to make some very small adjustments to the proposed logo. I well know how hard it is to satisfy everyone when it comes to art, but I struggle with this proposal.

Here is my compromise suggestion regarding this logo: Please remove the large blocky KPB which is what I find to be its least attractive feature. The constellation could be moved up into that space. Perhaps the mountain could be made a little higher. Kenai Peninsula Borough is spelled out immediately above the KPB and does not need to be abbreviated directly below in such a distractive, obtrusive way.

The rest of the logo is acceptable to me, though it is so generic it hardly represents what is unique, exciting, vital, and welcoming about this place I love.

Thank you for your consideration.
