Hi Michelle. Please forward this to all KPB assembly members.

With so much conflict of interest by assembly members involved with the bailout for the east side set netters being commercial fishermen this needs to be shut down immediately. It stinks! Besides that commercial fishing is a business just like any other business and can have good times and hard times and like us all who own and run small businesses we have experienced this. It's not the government's job to bail out certain special interest groups especially numerous times over and over again and counting. Let the essn fend for themselves and quit dividing and rearing the people unfairly . Quit turning this state and nation into a communist run organization. Stand on your own two feet and either sell and get out of fishing or make what you can and quit bitching for a bail out on the backs of every other tax payer. Enough is enough! If you can't make it on your own apparently it's not meant to be so quit being a burden on society. DO NOT SUPPORT THIS SELF SERVING INTEREST CONFLICTING PROPOSAL ANY MORE! Thank you.

Keep looking up!!!!
