Ordinance 2022-19-19

I am writing to voice my concern over the Ordinance 2022-19-19 for a Special Mayoral Election that is on the consent agenda scheduled for tonight 10-11-22 at 6pm. I would like to officially request that this item be either pulled from the consent agenda or amend the hearing date into November to allow more time for public notification and input. I believe it is especially important since there seems to be a wide disparity of biases on the Assembly as it sits now. The current sitting Mayor was put in place by the Assembly already without any public input, or at the least very little, and the position on the Assembly is an important role for it to be rushed without enough public notification or input for the hearing date as it is written now in the consent agenda.

Thank you

After meeting and discussing this ordinance with 15 Soldotna/Kenai people that meet regularly on Tuesday of each week, of importance was identified as: a Mail out ballot be avoided, due to a considerable number of volunteers to work as poll workers; a Run off election be made available depending on the outcome of the initial ballot; and, a January/February date is preferred date for this special election.
