STAFF REPORT

Specific Request / Scope of Subdivision: The proposed plat will subdivide one lot and one tract into two lots, realigning the line between them. The 2.843-acre lot will become 3.172-acre lot and the 2.797-acre tract will be a 2.469-acre lot with this platting action.

Location and Legal Access (existing and proposed): Access to the subdivision is along Moraine Vista Street, which is located near mile post 108 on the Sterling Highway in the Kasilof area. Moraine Vista Street is a developed road maintained by the Borough. The subdivision also backs against Noble Street, which is an undeveloped road on the east side of the plat.

There are no dedications or vacations of rights-of-ways proposed.

Lot 2 is accessed by an easement through Lot 1 as referenced in plat note 7.3 on the preliminary.

Block length is compliant being completed by Moraine Vista Street, Clancy Avenue, Noble Street and Sterling Highway.

PER DOT: The platting action voids any previous issued permits. You need to reapply for driveway access permits to state ROW.

KPB Roads Dept. comments	Out of Jurisdiction: No Roads Director: Griebel, Scott Comments: No comments
SOA DOT comments	

Site Investigation: The contours reveal some steep terrain, but the areas of 20% incline are not identified on the plat. Drainage is to the east and southeast. ***Staff recommends: steep areas be identified on the final.***

There are no wetlands or flood hazard areas within this subdivision.

State of Alaska Fish and Game	

Staff Analysis The land was first divided as the Tuttle Tracts KN72-75 from the E1/2 SE1/4 Sec 19 T3N R11W SM Kasilof, AK, into three tracts. Tracts B & C were then subdivided by Resubdivision of Tuttle Tracts B and C KN 74-97 into twelve tracts. Tract B-5 was further subdivided by Resubdivision of Tuttle Tract B-5 KN78-175.

The plat carried forward the 20-foot building setback and a 5' underground utility easement on Moraine Vista Street from both parent plats. A 10' HEA easement and a 5' underground utility or overhead clearing easement along Noble Street were carried forward from Resubdivision of Tuttle Tract B-5.

This subdivision is comprised of existing lots, one being a flag lot that exceeds 150. KPB 20.30.190(B) Lots-Dimensions states that, 'If the access portion is less than 60 feet wide, it may not exceed 150 feet in length.' **Staff recommends:** *the Plat Committee concur that an exception is not needed as this is an existing lot and the owners have an easement across Lot 1 in front of them that runs with the land.*

A soils report will not be required. 20.40.020(A)(1)(c) - Moving one or more lot lines without increasing the number of developable lots, while maintaining a minimum of 20,000 square feet of contiguous area, as described in KPB 20.40.040(A)(4)(a), for each lot affected by the lot line movement.

Notice of the proposed plat was mailed to the beneficial interest holder on October 25, 2023. The beneficial interest holder will be given 30 days from the date of the mailing of the notification to respond. They are given the opportunity to notify staff if their beneficial interest prohibits or restricts subdivision or requires their signature on the final plat. If no response is received within 30 days, staff will assume they have no requirements regarding the subdivision and it may be finalized.

The property is not within an advisory planning commission.

Utility Easements There are several utility easements listed in the certificate to plat that are listed in the plat notes of the subdivision. Utility easements from the parent plats have been carried forward and shown correctly.

The affected utility providers were emailed the subdivision plat public hearing notice as part of the routine notification process. **Staff recommends** to grant utility easements requested by the utility providers or work with the utility providers to obtain approval.

Utility provider review:

HEA	Approximate location of underground electric service is depicted where it crosses Lot 2A and serves Lot 1. Provide a label or plat note stating, "The existing underground powerline is the centerline of a 15-foot-wide electrical easement, including pedestals, granted this plat.
