Staff Analysis:

The vacated area is located in the Townsite of Kasilof surveyed as US Survey 3564. Previously the land had been aliquot parcel in Section 30 Township 3 North Range 11 West SM Alaska.

The 30' alley to be vacated is running through the middle of Block 11. Lots 2-7 are owned by the same owner which is adjacent to the portion being requested for vacation and is currently being used for residential purposes.

To the south on Lot 1 Block 11 is another residential owner and is currently vacant. The parcel to the east is currently vacant. Parcels to the north are currently vacant also.

After vacating the alley, the owner plans to combine the lots and vacated alley into one lot with a subdivision plat as shown on the drawing.

20.65.050 – Action on vacation application

D. The planning commission shall consider the merits of each vacation request and in all cases the planning commission shall deem the area being vacated to be of value to the public. It shall be incumbent upon the applicant to show that the area proposed for vacation is no longer practical for the uses or purposes authorized, or that other provisions have been made which are more beneficial to the public. In evaluating the merits of the proposed vacation, the planning commission shall consider whether:

1. The right-of-way or public easement to be vacated is being used;
Staff comments: *No*
2. A road is impossible or impractical to construct, and alternative access has been provided;
Staff comments: *road not installed, access from around the entire property as surrounded by streets.*
3. The surrounding area is fully developed and all planned or needed rights-of-way and utilities are constructed;
Staff comments: *random houses located in the area; roads laid out not constructed*
4. The vacation of a public right-of-way provides access to a lake, river, or other area with public interest or value, and if so, whether equal or superior access is provided;
Staff comments: *No*
5. The proposed vacation would limit opportunities for interconnectivity with adjacent parcels, whether developed or undeveloped;
Staff comments: *No, owner would be only user. Not developed.*
6. Other public access, other than general road use, exist or are feasible for the right-of-way;
Staff comments: *The property is surrounded by designated roads*
7. All existing and future utility requirements are met. Rights-of-way which are utilized by a utility, or which logically would be required by a utility, shall not be vacated, unless it can be demonstrated that equal or superior access is or will be available. Where an easement would satisfactorily serve the utility interests, and no other public need for the right-of-way exists, the commission may approve the vacation and require that a utility easement be granted in place of the right-of-way.
Staff comments: *No comments yet, suggest to accommodate if needed.*
8. Any other factors that are relevant to the vacation application or the area proposed to be vacated.
Staff comments:

A KPB Planning Commission decision denying a vacation application is final. A KPB Planning Commission decision to approve the vacation application is subject to consent or veto by the KPB Assembly, or City Council if located within City boundaries. The KPB Assembly, or City Council must hear the vacation within thirty days of the Planning Commission decision.

The Assembly will hear the vacation at their scheduled January 16, 2024 meeting.

If approved, US Survey 3564 Replat will finalize the proposed right of way vacations. The Plat Committee will review the plat upon submittal.

KPB 20.65.050 – Action on vacation application

- H. A planning commission decision to approve a vacation is not effective without the consent of the city council, if the vacated area to be vacated is within a city, or by the assembly in all other cases. The council or assembly shall have 30 days from the date of the planning commission approval to either consent to or veto the vacation. Notice of veto of the vacation shall be immediately given to the planning commission. Failure to act on the vacation within 30 days shall be considered to be consent to the vacation. This provision does not apply to alterations of utility easements under KPB 20.65.070 which do not require the consent of the assembly or city council unless city code specifically provides otherwise.**
- I. Upon approval of the vacation request by the planning commission and no veto by the city council or assembly, where applicable, the applicant shall have a surveyor prepare and submit a plat including the entire area approved for vacation in conformance with KPB 20.10.080. Only the area approved for vacation by the assembly or council may be included on the plat. The final plat must be recorded within one year of the vacation consent.**
- J. A planning commission decision denying a vacation application is final. No reapplication or petition concerning the same vacation may be filed within one calendar year of the date of the final denial action except in the case where new evidence or circumstances exist that were not available or present when the original petition was filed.**
- K. An appeal of the planning commission, city council or assembly vacation action under this chapter must be filed in the superior court in accordance with the Alaska Rules of Appellate Procedure.**
