FOR PHASE V OF THE CPH RADIOLOGY EXPANSION PROJECT**

- WHEREAS,** the Kenai Peninsula Borough has entered into a Lease and Operating Agreement with Central Peninsula General Hospital, Inc. - WHEREAS,** in early 2013 CPGH, Inc. completed the development of a five-phase master plan for the CPH imaging department in order to plan for volume growth, upgrades, and the replacement of major imaging modalities as they approach the end of their useful life; and
- WHEREAS,** Phases I and II of the imaging department master plan have been completed; and
- WHEREAS,** in Ordinance 2014-19-43 the assembly appropriated funds to complete Phases III and IV which allow for remodeling and installation of recently approved fluoroscopy equipment into a permanent location and completes permanent space for replacement of MRI and nuclear medicine equipment which are nearing the end of their useful lives; and
- WHEREAS,** Phases III and IV can be completed simultaneously while still allowing the imaging department to function and provide necessary services for patients; and
- WHEREAS,** Phase V includes demolition and reconstruction of the central core to the existing radiology project that currently houses nuclear medicine, ultrasound, staff office space, and the recently replaced CT room and control area, and renovation providing a new back of house corridor through radiology to the adjacent departments and throughout the hospital, and two new ultrasound rooms, five additional dressing rooms, clean med prep, uptake, storage, and technical workspaces; and

WHEREAS, the work for Phase V is connected to Phases III and IV both physically and operationally, and completing the design of all three phases in one process will reduce effort and costs; and

WHEREAS, at its meeting of January 11, 2016, the Central Kenai Peninsula Hospital Service Area Board recommended approval;

NOW, THEREFORE, BE IT ORDAINED BY THE ASSEMBLY OF THE KENAI PENINSULA BOROUGH:
