SUBJECT: Resolution 2016-*038*, A Resolution Accepting Medical Equipment from the Southern Region Emergency Medical Services Council, Inc. on Behalf of Anchor Point Fire & Emergency Medical Service Area (Mayor)

Southern Region Emergency Medical Services Council, Inc., ("Southern Region") is a nonprofit corporation that serves as a resource center for emergency medical response agencies located in low to moderate income, rural communities. Anchor Point Fire & Emergency Medical Service Area (service area) submitted a "Code Blue Phase 15" application to Southern Region for a training manikin, software and an intraosseous adult leg (manikin training).

Southern Region approved the application and will purchase the equipment on behalf of the service area. The equipment award requires a ten percent match. Funds are available in the service area's approved FY16 budget to meet the match requirement. On November 19, 2014 the service area board approved the letter of support for this grant.

Albert Terry, APFEMSA Fire Chief, will oversee grant requirements for equipment inventory and maintenance.

Attachment: SREMSC award notification. The automated external defibrillators will not be purchased as listed in the award letter.
