Re: Resolution 2016-032: A resolution to Form the Funny River East Utility Special Assessment District and Proceed with the Improvement

I am in receipt of your notice of a Public Hearing on the Funny River East Utility Special Assessment District scheduled for June 21, 2016.

Unfortunately, owing to prior commitments, I will be unable to attend the public hearing. Nevertheless, I wish to express my opposition to Resolution 2016-032. I do not believe that a gas line is necessary in this area, and I am concerned that the financial obligations to parcel owners to provide the line will cause many a financial hardship.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Catchpole". The signature is fluid and cursive, with a large initial "D" and a stylized "Catchpole".

RE: NOTICE OF PUBLIC HEARING
FUNNY RIVER EAST USAD Resolution 2016-032

Dear Members of the Kenai Peninsula Borough Assembly:

I am writing to object to the above referenced USAD. I am the owner of three contiguous parcels on Moonshine Drive.

I do not believe that there is any necessity or benefit for the proposed natural gas line along Funny River Road. All occupied properties currently have sources of fueling their properties. The cost to retrofit and replace and remove our current fuel lines, fuel receptacles and appliances, as well as the assessment, will negate any potential savings on natural gas. Also, we have no way of predicting the future cost of natural gas; it may well be more expensive than our current methods of heating our homes.

I ask you to decline this USAD as unnecessary.

Thank you for your consideration,

Linda Helbock

We are the owners of the following properties involved in the Funny River Natural Gas project.

~~Lot 1-A Block 3 River Bridge Estates and~~
~~Lot 2 Block 3, River Bridge Estates~~

We are in no way interested in having natural gas on our properties. We have said NO several times concerning this issue.

To my knowledge, there is only one year round resident on River Bend Drive, the rest are recreational properties with little winter time use. I understand why property owners who stay here year round would like the option for natural gas, but that cost should not be forced onto people who do not wish to incur the cost to switch.

When we built on our property, we incurred the cost to bring electric on site. Other property

owners were not forced to pay for our amenities. We chose to build our home site and use electricity for our heat and necessities and now we are retired and living on a fixed income and others are asking us to incur the cost for their amenities. This is not a fair practice and needs to be stopped.

I would also ask that some one investigate why some properties were excluded from this plan when they are obviously on our road. It appears that some were purposely excluded to achieve the amount of yes votes needed to pass. This is not a fair or equitable means to gain approval for this project.

Sincerely,

John L. King Sr.
