**Subject:** Kenai River Center - Kenai Peninsula Streambank Rehabilitation & Habitat Protection Cost Share Program

Mr. Dearlove,

Your project proposal has been accepted into the 2017 Kenai Peninsula Streambank Rehabilitation & Habitat Protection Cost Share Program. You have been approved to receive match funding from the Cost Share Program not to exceed \$37,500.

As well, Kyle is working on the agreement between you and USFWS for your project and will have that for your review and signature in the next few weeks.

In the meantime, if you have not filled out a Kenai River Center Multi-Agency Permit Application, you can start working on that. I have attached a permit application, tax credit and tax exemption forms. For additional information please visit the Kenai River Center website at: <http://www.kenairivercenter.org/river-center/permits/permit-applications>.

Please Note: All of your permit applications and agreement forms must be completed and signed before any work can be conducted on the project site. If you have questions, please feel free to call or email Kyle or I.

Thank you,

**Tracy A. Smith**
