Good morning Patricia,

I have no objection to the official naming of the mountain peaks in Moose Pass, though I must say I had never heard of any of them in local use and I have lived here since 1982. However they make sense. As people have moved in and out of this area they have called the unnamed peaks many different names which can get confusing. I see no problem with the railroad theme as the railroad played a major part in this areas development.

As to the transfer of land to DOT, I do have a comment. I believe that several years ago the Pioneers of Alaska was going to obtain the property and this was the reason the MPAPC had not objected to its transfer to Borough hands. If this did not happen it saddens me. The idea was for the Pioneers to allow for the Sportsmans Club to also use the property for events if they wanted. At the time the MPAPC had other ideas for the land but felt that with the Pioneers and Sportsmans working together it would be a good fit for the community. I do know the DOT facility is in need of more room.

I did not comment to the local APC as I was unable to attend the meeting last night.
