Good Afternoon,

We are going to fund your reallocation request for the additional funds. I will work on having an amendment generated with an updated PBD as well. Let me know if you have any questions regarding this.

Brenda,

I'm looking over the reallocation request. Just a quick question. When you originally e-mailed about this project it was looking to use funds from PBD 1 under the 17 SHSP grant. Is that still the case or does the Borough need additional funds for this project? Thanks for your assistance with this.
