

Kenai Peninsula Borough

Community & Fiscal Projects

MEMORANDUM

TO: Wayne Ogle, Assembly President
Members, Kenai Peninsula Borough Assembly

THRU: Charlie Pierce, Mayor 
James Baisden, Chief of Staff 
Brandi Harbaugh, Finance Director 
Roy Browning, Acting Chief of Emergency Services 

FROM: Brenda Ahlberg, Community & Fiscal Projects Manager 

DATE: January 17, 2019

RE: Amendment to Resolution 2019-009, Establishing Kenai Peninsula Borough 2019 State Capital Project Priorities for Public Safety (Mayor)

This resolution seeks authorization for the borough to apply for the 2019 State of Alaska legislative capital grants to supplement public safety. The number one priority project of the Kenai Peninsula Fire Chiefs Association (KPFCA) is the replacement of aged self-contained breathing apparatus (SCBA) for all municipal and volunteer fire departments in the borough. At the KPFCA meeting held on January 16, 2019, the City of Homer Volunteer Fire Department requested an increase in the number of SCBA packs previously requested from 23 packs to 30 packs resulting in this amendment.

Based on the revised request from the City of Homer, the administration respectfully requests that the assembly amend this resolution and substitute the attached amended Supporting Kenai Peninsula Fire Chiefs Association Year 2019 State Capital Improvement Projects Submission and Information System (CAPSIS) form. (Please note the bold underlined language is new and the bold strikeout language in brackets is to be deleted.)

➤ Amend the second whereas as follows:

WHEREAS, the borough requests funding in the amount of **\$[1,999,200] 2,046,800** to purchase **[294] 301** self-contained breathing apparatus (SCBA) on behalf of all municipal and volunteer fire departments within the borough; and

Kenai Peninsula Borough

Year 2019 State Capital Improvement Projects

REVISED

SUPPORTING KENAI PENINSULA FIRE CHIEFS ASSOCIATION

Funding Recipient: Kenai Peninsula Borough

Project Name: Areawide SCBA Replacement Project

Project Priority
Ranking:

1

Detailed Project Description and Justification:

On behalf of the municipal and volunteer fire departments, the borough respectfully requests \$2,046,800 to replace 301 SCBA units that are no longer serviceable or able to be upgraded. This grant will supplement the high cost to have total interoperability among all municipal and volunteer fire departments with standardized SCBA inventories and compliance with NFPA / OSHA mandates. The borough will purchase and distribute the SCBA to all participating departments through memorandum of agreements to non-borough entities. The goal of this project is to lower the risk of inhalations hazards, hardening the safety and wellbeing of our firefighters with properly outfitted, reliable SCBA. Additionally, purchasing SCBA units (consisting of a face mask, pack and two cylinders) will resolve the issue with the departments' current inventories of 4500 PSI air cylinders that are past their serviceable life and can no longer be legally hydro-tested.

In 2013 the Alaska Fire Chiefs Association received a legislative appropriation to upgrade SCBA for 33 fire stations across Alaska. However, the last useful upgrade to these aged SCBA continue to have problems with maintenance and serviceability that can no longer be addressed under the 2018 editions of NFPA 1981 "Standard on Open-Circuit SCBA" and NFPA 1982 "Standard on Personal Alert Safety System. Maintaining the mixed inventory of unserviceable cylinders, different versions of universal rescue connections (URC) or rapid intervention couplings (RIC), varying URC/RIC hose, pack frames and escape rope positions is not cost effective or safe for our firefighters. We should not issue cobbled packs to firefighters with the potential to expose them to chemical or biological hazards and expect them to have confidence in the issued PPE.

Aside from the municipalities of Homer, Kenai, Seward and Soldotna, our rural fire response zones do not have building plan requirements or construction codes, and fire code restrictions are nonexistent for single dwelling homes. Fire suppression is compounded by unpredictable construction techniques - where residents build houses with dilapidated materials, heat with fuel oil or propane tanks and stage fuel containers in/outside of structures. Our firefighters respond to structure fires with no knowledge of what they will be exposed to while encountering taxing conditions that are capable of pushing the limits of their abilities. In closing, the standardization will achieve interoperability and enhance firefighter safety. By using standardized SCBA, firefighters will be more confident and proficient in their personal protective equipment, which in turn will support their capabilities to perform at a high-functioning response level for our civilians that need protection of life and property.

The 2017 borough population is 58,024; the fiscal savings to our residents by the State supplementing this project is approximately \$35 per resident ($\$2,046,800 \div 58,024$). The total project cost of \$2,046,800 is a small investment versus losing a firefighter. (FEMA 2009 Benefit Cost Analysis calculates the value of \$1.74 million per statistical human life.)

Funding Requested: \$2,046,800

Total Project Cost: \$2,046,800

Funding Plan:		
Total Project Cost:	\$ 2,046,800	This should be the most accurate estimate of how much this project will cost.
Funding Secured:	\$ 0	How much of the project costs are in hand, secured, guaranteed, appropriated, etc. You may include in-kind contributions and volunteer labor. Do not include hypothetical funds.
Funding Requested:	\$ 2,046,800	How much is being requested from this year's capital budget.
Pending Requests	\$ 0	Amount requested from other sources not yet received.
Project Deficit:	\$ 2,046,800	Additional funding needed to complete the project.

Please list Secured Funding Sources and Amounts:

The estimated cost per unit is \$6,800, and each department will provide any overrun costs for additional packs due to the high shipping costs in Alaska. See 2018 SCBA inventory list and individual department's financial contribution.

If this project is funded this year, will you be requesting state funding again?

Yes: ☐ No: ☒

Please describe the project time-line and when the expenditures will occur:

Has this project gone through a public review process at the local level?

Yes: ☒ No: ☐

Yes: ☒ No: ☐

If a community or service area meeting was conducted, how was it advertised? When and where was it held? Who attended? Peninsula Chiefs have met three times throughout 2018 to evaluate different vendor options and training to the SCBA. The borough will work to negotiate with the chosen vendor to receive some credit for the existing SCBA and training to the new SCBA units will be done by departments. We will continue to use in-house technicians, ensuring that they are certified instructors that will perform training and maintenance to the new units.

NEED MORE INPUT HERE...

Who will own the project or facility? Kenai Peninsula Borough will own the equipment during the grant performance period and enter into memorandum of agreements with non-borough entities prior to distributing SCBA packs. Owner transfers will be issued with DCCED approval.

Entity responsible for providing ongoing operation and maintenance of this project? Each department will be responsible for operation and maintenance as well as training to equipment.

How will operations and maintenance be funded after the project is complete? Each department will have the funds in their annual operating budgets.
