Project Title: Tsalteshi Trails Improvement Project 2020

Project Description:

Tsalteshi Trails is applying for RTP grant funding to add material (sand, gravel mix) to the clay surface trails on the Moose, Wolf, Bear, Beaver and Lynx loops. This will harden the trail tread and provide for better drainage.

The trails will be raised and re-graded only within their existing footprint.

The K-Beach and Slikok parking lots will be resurfaced with D-1 gravel or "Rap" material depending on availability.

Tsalteshi will add signage, placed on treated wooden posts, to all the Single-Track trails and build a Kiosk and place a map at the Slikok Trailhead and the Isaak road trailhead

Tsalteshi will add handrails to the K-Beach toilets.

Nearest Community: Soldotna, Alaska (see map)
