

Introduced by: Mayor
Date: 11/05/19
Hearing: 12/03/19
Action: Amended by Substitute
Vote: 9 Yes, 0 No, 0 Absent

**KENAI PENINSULA BOROUGH
ORDINANCE 2019-30**

**AN ORDINANCE AMENDING KPB 21.29, KPB 21.25, AND KPB 21.50.055
REGARDING MATERIAL SITE PERMITS, APPLICATIONS, CONDITIONS, AND
PROCEDURES**

- WHEREAS,** Goal 6.5, Objective 1 of the 2005 Kenai Peninsula Borough Comprehensive Plan is to ensure that land use regulations adopted by the borough are necessary to control uses that affect public health and safety and address adverse impacts on the rights of adjacent property owners; and
- WHEREAS,** Goal 6.5, Objective 1, Implementation Action A, is to continue to periodically review and update existing regulations to reflect changing conditions and policies in the borough; and
- WHEREAS,** Goal 6.6 of the 2005 comprehensive plan is to reduce land use conflicts outside of the cities; and
- WHEREAS,** Goal 6.6, Objective 1, Implementation Action D, is to improve the land use regulations currently in existence including those related to material sites to minimize the impacts of erosion and flooding of neighboring properties and to minimize conflicts with surrounding land uses; and
- WHEREAS,** Goal 7.1, Objectives 1 and 2, of the 2005 comprehensive plan are to work with other agencies to protect public health and environment, to avoid duplications of other agencies' regulations, and to provide input to federal and state agencies on local conditions and opinions; and
- WHEREAS,** Goal 1 of the Mining and Minerals Processing section of the 1990 Kenai Peninsula Borough Coastal Management Program is to provide opportunities to explore, extract and process minerals, sand and gravel resources, while protecting environmental quality and other resource users; and
- WHEREAS,** an assembly subcommittee was formed in 2005 to review the material site code; and
- WHEREAS,** Ordinance 2006-01 (Substitute) codified as KPB 21.29 was adopted in 2006 after consideration of the subcommittee's report; and

WHEREAS, the planning department has been administering Ordinance 2006-01 (Substitute), codified as KPB 21.29 for 13 years; and

WHEREAS, KPB 21.25.040 requires a permit for the commencement of certain land uses within the rural district of the Kenai Peninsula Borough; and

WHEREAS, the planning department has recognized that certain provisions of the material site ordinance could be better clarified for the operators, public, and staff; and

WHEREAS, the planning commission and planning department received comments expressing concerns about dust, noise, and aesthetics; and

WHEREAS, approximately 253 registered prior existing use material sites and approximately 99 conditional land use permits for material sites have been granted since 1996;

WHEREAS, the planning department receives numerous complaints regarding unreclaimed parcels registered as nonconforming prior existing material sites which have not been regulated by KPB; and

WHEREAS, the assembly established a material site work group by adoption of resolution 2018-004 (Substitute) to engage in a collaborative discussion involving the public and industry to make recommendations regarding the material site code; and

WHEREAS, assembly resolution 2018-025 extended the deadline for the final report to be submitted to the assembly, administration and planning commission to April 30, 2019; and

WHEREAS, certain additional conditions placed on material site permits would facilitate a reduction in the negative secondary impacts of material sites, e.g. dust, noise, and unsightliness of material sites; and

WHEREAS, at its regularly scheduled meeting of November 12, 2019, the Planning Commission recommended _____;

NOW, THEREFORE, BE IT ORDAINED BY THE ASSEMBLY OF THE KENAI PENINSULA BOROUGH:

SECTION 1. That KPB 21.25.030 is hereby amended, as follows:

21.25.030. Definitions.

Unless the context requires otherwise, the following definitions apply to CLUPs:

Abandon means to cease or discontinue a use without intent to resume, but excluding short-term interruptions to use or activity during periods of remodeling, maintaining, or otherwise improving or rearranging a facility or during normal

periods of vacation or seasonal closure. An "intent to resume" can be shown through continuous operation of a portion of the facility, maintenance of utilities, or outside proof of continuance, e.g., bills of lading or delivery records. Abandonment also means the cessation of use, regardless of voluntariness, for a specified period of time.

Animal feeding operation means a lot or facility (other than an aquatic animal production facility) where animals (other than aquatic animals) have been, are, or will be stabled or confined and fed or maintained for a total of 45 days or more in any 12-month period.

- a. The same animals need not remain on the lot for 45 days or more; rather, some animals are fed or maintained on the lot 45 days out of any 12-month period, and
- b. Animals are "maintained" for purposes of this ordinance when they are confined in an area where waste is generated and/or concentrated or are watered, cleaned, groomed, or medicated in a confined area, even if the confinement is temporary.
- c. Two or more animal feeding operations under common ownership are considered, for the purposes of these regulations, to be a single animal feeding operation if they adjoin each other.
- d. Slaughterhouses are animal feeding operations.

Animal unit means a unit of measurement for any animal feeding operation calculated by adding the following numbers: the number of slaughter and feeder cattle multiplied by 1.0, plus the number of mature dairy cattle multiplied by 1.4, plus the number of swine weighting [weighing] over 25 kilograms (approximately 55 pounds) multiplied by 0.4, plus the number of sheep multiplied by 0.1, plus the number of horses multiplied by 2.0.

Animal waste means animal excrement, animal carcasses, feed wasted, process wastewaters or any other waste associated with the confinement of animals from an animal feeding operation.

Animal waste management system means a combination of structures and nonstructural practices serving an animal feeding operation that provides for the collection, treatment, disposal, distribution, storage and land application of animal waste.

Aquifer means a subsurface formation that contains sufficient water-saturated permeable material to yield economical quantities of water to wells and springs.

Aquifer-confining layer means that layer of relatively impermeable soil below an aquifer, typically clay, which confines water.

Assisted living home means a residential facility that serves three or more adults who are not related to the owner by blood or marriage, or that receives state or that receives state or federal payment for service of the number of adults served. The services and activities may include, but are not limited to, housing and food services to its residents, assistance with activities of daily living, and personal

assistance, and that complies with Alaska Statutes 47.32.0101 – 47.60.900, as amended.

Child care facility means a place where child care is regularly provided for children under the age of 12 for periods of time that are less than 24 hours in duration and that is licensed pursuant to AS 47.35.005 et seq., excluding child care homes and child care group homes, as currently written or hereafter amended.

Commercial means any provision of services, sale of goods, or use operated for production of income whether or not income is derived, including sales, barter, rental, or trade of goods and services.

Concentrated animal feeding operation (CAFO) means an animal feeding operation confining at least: (1) 1,000 swine weighing at least approximately 55 pounds; (2) 1,000 slaughter and feeder cattle; (3) 700 mature dairy cattle; (4) 500 horses; (5) 10,000 sheep or lambs; (6) 55,000 turkeys; (7) 100,000 laying hens or broilers (if the facility has continuous overflow watering); (8) 30,000 laying hens or broilers (if the facility has a liquid manure system); (9) 5,000 ducks; (10) 1,000 animal units; or (11) a combination of the above resulting in at least 1,000 animal units. Each individual parcel upon which a CAFO is located is a separate CAFO unless they adjoin each other.

Conditioning or processing material means a value-added process including batch plants, asphalt plants, screening, washing, and crushing by use of machinery.

Correctional community residential center (CCRC) means a community residential center, other than a correctional institution, for the short-term or temporary detention of prisoners in transition from a correctional institution, performing restitution, or undergoing rehabilitation or recovery from a legal infirmity. CCRCs may not be used for detention of prisoners who pose a threat or danger to the public for violent or sexual misconduct without imprisonment or physical confinement under guard or twenty-four hour physical supervision. The determination of whether a prisoner poses a threat or danger to the public for violent or sexual misconduct without imprisonment or physical confinement under guard or twenty-four hour physical supervision shall be made by the commissioner of corrections for state prisoners and the United States Attorney General, or the U.S. Director of Bureau of Prisons for federal prisoners.

Correctional institution means a facility other than a correctional community residential center providing for the imprisonment or physical confinement or detention of prisoners under guard or twenty-four hour physical supervision, such as prisons, prison farms, jails, reformatories, penitentiaries, houses of detention, detention centers, honor camps, and similar facilities.

Development plan means a plan created to describe a proposed development on a specific building site excluding material sites under KPB 21.29.020.

Disturbed includes active excavation and all areas necessary to use a parcel as a material site including but not limited to berms, stockpiles, and excavated areas excluding all areas reclaimed for alternate post mining land uses.

[EXHAUSTED MEANS THAT ALL MATERIAL OF A COMMERCIAL QUALITY IN A SAND, GRAVEL, OR MATERIAL SITE HAS BEEN REMOVED.]

Federal prisoners means offenders in the custody or control or under the care or supervision of the United States Attorney General or the Bureau of Prisons.

Groundwater means, in the broadest sense, all subsurface water, more commonly that part of the subsurface water in the saturated zone.

Haul route includes the roads used to haul materials from the permit area to a roadway designated as collector, arterial or interstate by the Alaska Department of Transportation & Public Facilities.

Liquid manure or liquid animal waste system means any animal waste management system which uses water as the primary carrier of such waste into a primary retention structure.

Multi-purpose senior center is a facility where persons 60 years of age or older are provided with services and activities suited to their particular needs. The services and activities may include, but are not limited to, health examinations, legal assistance, recreation programs, general social activities, telephone reassurance programs, nutrition classes, meals at minimum cost, counseling, protective services, programs for shut-ins and education programs, and that complies with Alaska Statutes 47.60.010—47.60.090, as currently written or hereafter amended.

Permit area includes all excavation, processing, buffer and haul route areas of a CLUP or counter permit.

Person shall include any individual, firm, partnership, association, corporation, cooperative, or state or local government.

Prisoner means:

- a. a person held under authority of state law in official detention as defined in AS 11.81.900;
- b. includes a juvenile committed to the custody of the Alaska Department of Corrections Commissioner when the juvenile has been charged, prosecuted, or convicted as an adult.

Private school is a school comprised of kindergarten through 12th grade, or any combination of those grades, that does not receive direct state or federal funding and that complies with either Alaska Statute 14.45.030 or 14.45.100—14.45.130, as currently written or hereafter amended.

Public school is a school comprised of kindergarten through 12th grade, or any combination of those grades, that is operated by the State of Alaska or any political subdivision of the state.

Sand, gravel or material site means an area used for extracting, quarrying, or conditioning gravel or substances from the ground that are not subject to permits through the state location (mining claim) system (e.g., gold, silver, and other metals), nor energy minerals including but not limited to coal, oil, and gas.

Seasonal high groundwater table means the highest level to which the groundwater rises on an annual basis.

Senior housing project means senior housing as defined for purposes of construction or operation in 15 Alaska Administrative Code 151.950(c), as currently written or hereafter amended.

Stable condition means the rehabilitation, where feasible, of the physical environment of the site to a condition that allows for the reestablishment of renewable resources on the site within a reasonable period of time by natural processes.

Surface water means water on the earth's surface exposed to the atmosphere such as rivers, lakes, and creeks.

Topsoil means material suitable for vegetative growth.

Vicinity means the same as the area of notification.

Waterbody means any lake, pond, stream, riparian wetland, or groundwater into which storm water runoff is directed.

Water source means a well, spring or other similar source that provides water for human consumptive use.

SECTION 2. That KPB 21.29 is hereby amended, as follows:

CHAPTER 21.29. MATERIAL SITE PERMITS

21.29.010. Material extraction exempt from obtaining a permit.

- A. Material extraction which disturbs an area of less than one acre that is not in a mapped flood plain or subject to 21.29.010(B), does not enter the water table, and does not cross property boundaries, does not require a permit. There will be no excavation within 20 feet of a right-of-way or within ten feet of a lot line.
- B. Material extraction taking place on dewatered bars within the confines of the Snow River and the streams within the Seward-Bear Creek Flood Service Area does not require a permit, however, operators subject to this exemption shall provide the planning department with the information required by KPB 21.29.030(A)(1), (2), (6), (7) and a current flood plain development permit prior to beginning operations.
- C. A prior existing use under KPB 21.29.120 does not require a material extraction permit, but a floodplain development permit is required for all activities within any mapped special flood hazard area.
- D. Material extraction incidental to site development does not require a permit when an approved site development plan is on file with the planning department. Site development plans are approved by the planning director

and are valid for one year. The site development plan may be renewed on an annual basis subject to the planning director's approval.

21.29.020. Material extraction and activities requiring a permit.

- A. *Counter permit.* A counter permit is required for material extraction which disturbs no more than 2.5 cumulative acres and does not enter the water table. Counter permits are approved by the planning director, and are not subject to the notice requirements or planning commission approval of KPB 21.25.060. A counter permit is valid for a period of 12 months, with a possible 12-month extension.
- B. *Conditional land use permit.* A conditional land use permit (CLUP) is required for material extraction which disturbs more than 2.5 cumulative acres, or material extraction of any size that enters the water table. A CLUP is required for materials processing. A CLUP is valid for a period of five years. The provisions of KPB Chapter 21.25 are applicable to material site CLUPS and the provisions of KPB 21.25 and 21.29 are read in harmony. If there is a conflict between the provisions of KPB 21.25 and 21.29, the provisions of KPB 21.29 are controlling.

21.29.030. Application procedure.

- A. In order to obtain a counter permit or CLUP, an applicant shall first complete and submit to the borough planning department a permit application, along with the fee listed in the most current Kenai Peninsula Borough Schedule of Rates, Charges and Fees. The planning director may determine that certain contiguous parcels are eligible for a single permit. The application shall include the following items:
 - 1. Legal description of the parcel, KPB tax parcel ID number, and identification of whether the permit is for the entire parcel, or a specific location within a parcel;
 - 2. Expected life span of the material site;
 - 3. A buffer plan consistent with KPB 21.29.050(A)(2);
 - 4. Reclamation plan consistent with KPB 21.29.060;
 - 5. The depth of excavation;
 - 6. Type of material to be extracted and type of equipment to be used;
 - 7. Any voluntary permit conditions the applicant proposes. Failure to include a proposed voluntary permit condition in the application does not preclude the applicant from proposing or agreeing to voluntary permit conditions at a later time;
 - 8. Surface water protection measures, if any, for adjacent properties designed by a civil engineer, including the use of diversion channels,

interception ditches, on-site collection ditches, sediment ponds and traps, and silt fence;

9. A site plan and field verification prepared by a professional surveyor licensed and registered in the State of Alaska, including the following information:
- a. Location of excavation, and, if the site is to be developed in phases, the life span and expected reclamation date for each phase;
 - b. Proposed buffers consistent with KPB 21.29.050(A)(2), or alternate buffer plan;
 - c. Identification of all encumbrances, including, but not limited to easements;
 - d. Points of ingress and egress. Driveway permits must be acquired from either the state or borough as appropriate prior to the issuance of the material site permit;
 - e. Anticipated haul routes;
 - f. Location and [DEPTH] elevation of test holes, and depth of groundwater, if encountered between May and December. At least one test hole per ten acres of excavated area is required to be dug. The test holes shall be at least four feet below the proposed depth of excavation;
 - g. Location of wells of adjacent property owners within 300 feet of the proposed parcel boundary;
 - h. Location of any water body on the parcel, including the location of any riparian wetland as determined by "Wetland Mapping and Classification of the Kenai Lowland, Alaska" maps created by the Kenai Watershed Forum;
 - [I]. SURFACE WATER PROTECTION MEASURES FOR ADJACENT PROPERTIES, INCLUDING THE USE OF DIVERSION CHANNELS, INTERCEPTION DITCHES, ON-SITE COLLECTION DITCHES, SEDIMENT PONDS AND TRAPS, AND SILT FENCE; PROVIDE DESIGNS FOR SUBSTANTIAL STRUCTURES; INDICATE WHICH STRUCTURES WILL REMAIN AS PERMANENT FEATURES AT THE CONCLUSION OF OPERATIONS, IF ANY;]
 - [J]i. Location of any processing areas on parcel, if applicable;
 - [K]j. North arrow;
 - [L]k. The scale to which the site plan is drawn;
 - [M]l. Preparer's name, date and seal;
 - [N]m. Field verification shall include staking the boundary of the parcel at sequentially visible intervals. The planning director

may grant an exemption in writing to the staking requirements if the parcel boundaries are obvious or staking is unnecessary.

- B. In order to aid the planning commission or planning director's decision-making process, the planning director shall provide vicinity, aerial, land use, and ownership maps for each application and may include additional information.

21.29.040. Standards for sand, gravel or material sites.

- A. These material site regulations are intended to protect against aquifer disturbance, road damage, physical damage to adjacent properties, dust, noise, and visual impacts. Only the conditions set forth in KPB 21.29.050 may be imposed to meet these standards:
1. Protects against the lowering of water sources serving other properties;
 2. Protects against physical damage to [OTHER] adjacent properties;
 3. [MINIMIZES] Protects against off-site movement of dust;
 4. [MINIMIZES] Protects against noise disturbance to other properties;
 5. [MINIMIZES] Protects against visual impacts of the material site; [AND]
 6. Provides for alternate post-mining land uses[.];
 7. Protects Receiving Waters against adverse effects to fish and wildlife habitat;
 8. Protects against traffic impacts; and
 9. Provides consistency with the objectives of the Kenai Peninsula Borough Comprehensive Plan and other applicable planning documents.

21.29.050. Permit conditions.

- A. The following mandatory conditions apply to counter permits and CLUPs issued for sand, gravel or material sites:
1. [PARCEL]Permit boundaries. [ALL BOUNDARIES OF THE SUBJECT PARCEL] The buffers and any easements or right-of-way abutting the proposed permit area shall be staked at sequentially visible intervals where parcel boundaries are within 300 feet of the excavation perimeter. Field verification and staking will require the services of a professional land surveyor. Stakes shall be in place [AT TIME OF APPLICATION] prior to issuance of the permit.
 - [2. *BUFFER ZONE.* A BUFFER ZONE SHALL BE MAINTAINED AROUND THE EXCAVATION PERIMETER OR PARCEL BOUNDARIES. WHERE AN EASEMENT EXISTS, A BUFFER SHALL NOT OVERLAP THE EASEMENT,

UNLESS OTHERWISE CONDITIONED BY THE PLANNING DIRECTOR OR PLANNING COMMISSION.

- A. THE BUFFER ZONE SHALL PROVIDE AND RETAIN A BASIC BUFFER OF:
 - I. 50 FEET OF UNDISTURBED NATURAL VEGETATION, OR
 - II. A MINIMUM SIX-FOOT EARTHEN BERM WITH AT LEAST A 2:1 SLOPE, OR
 - III. A MINIMUM SIX-FOOT FENCE.
- B. A 2:1 SLOPE SHALL BE MAINTAINED BETWEEN THE BUFFER ZONE AND EXCAVATION FLOOR ON ALL INACTIVE SITE WALLS. MATERIAL FROM THE AREA DESIGNATED FOR THE 2:1 SLOPE MAY BE REMOVED IF SUITABLE, STABILIZING MATERIAL IS REPLACED WITHIN 30 DAYS FROM THE TIME OF REMOVAL.
- C. THE PLANNING COMMISSION OR PLANNING DIRECTOR SHALL DESIGNATE ONE OR A COMBINATION OF THE ABOVE AS IT DEEMS APPROPRIATE. THE VEGETATION AND FENCE SHALL BE OF SUFFICIENT HEIGHT AND DENSITY TO PROVIDE VISUAL AND NOISE SCREENING OF THE PROPOSED USE AS DEEMED APPROPRIATE BY THE PLANNING COMMISSION OR PLANNING DIRECTOR.
- D. BUFFERS SHALL NOT CAUSE SURFACE WATER DIVERSION WHICH NEGATIVELY IMPACTS ADJACENT PROPERTIES OR WATER BODIES. SPECIFIC FINDINGS ARE REQUIRED TO ALTER THE BUFFER REQUIREMENTS OF KPB 21.29.050(A)(2)(A) IN ORDER TO MINIMIZE NEGATIVE IMPACTS FROM SURFACE WATER DIVERSION. FOR PURPOSES OF THIS SECTION, SURFACE WATER DIVERSION IS DEFINED AS EROSION, FLOODING, DEHYDRATION OR DRAINING, OR CHANNELING. NOT ALL SURFACE WATER DIVERSION RESULTS IN A NEGATIVE IMPACT.
- E. AT ITS DISCRETION, THE PLANNING COMMISSION MAY WAIVE BUFFER REQUIREMENTS WHERE THE TOPOGRAPHY OF THE PROPERTY OR THE PLACEMENT OF NATURAL BARRIERS MAKES SCREENING NOT FEASIBLE OR NOT NECESSARY. BUFFER REQUIREMENTS SHALL BE MADE IN CONSIDERATION OF AND IN ACCORDANCE WITH EXISTING USES OF ADJACENT PROPERTY AT THE TIME OF APPROVAL OF THE PERMIT. THERE IS NO REQUIREMENT TO BUFFER THE MATERIAL SITE FROM USES WHICH COMMENCE AFTER THE APPROVAL OF THE PERMIT.]

2. *Buffer Area.* Material sites shall maintain buffer areas in accord with this section.

- a. A buffer area of a maximum of 100 feet shall be established between the area of excavation and the parcel boundaries. The buffer area may include one or more of the following: undisturbed

natural vegetation, a minimum six-foot fence, a minimum six-foot berm or a combination thereof.

- b. A 2:1 slope shall be maintained between the buffer zone and excavation floor on all inactive site walls. Material from the area designated for the 2:1 slope may be removed if suitable, stabilizing material is replaced within 30 days from the time of removal.
- c. Where an easement exists, a buffer shall not overlap the easement, unless otherwise conditioned by the planning commission or planning director, as applicable.
- d. The buffer area may be reduced where the planning commission or planning director, as applicable, has approved an alternate buffer plan. The alternate buffer plan must consist of natural undisturbed vegetation, a minimum six-foot berm, or a minimum six-foot fence or a combination thereof; unless the permittee proposes another solution approved by the planning commission or planning director, as applicable, to meet this condition.
- e. The buffer requirements may be waived by the planning commission or planning director, as applicable, where the topography of the property or the placement of natural barriers makes screening not feasible or unnecessary.
- f. There is no requirement to buffer a material site from uses that commence after approval of the permit.
- g. When a buffer area has been denuded prior to review of the application by the planning commission or planning director revegetation may be required.

3. *Processing.* In the case of a CLUP, any equipment which conditions or processes material must be operated at least 300 feet from the parcel boundaries. At its discretion, the planning commission may waive the 300-foot processing distance requirement, or allow a lesser distance in consideration of and in accordance with existing uses of [OF ADJACENT PROPERTY AT THE TIME] the properties in the vicinity at the time of approval of the permit.

4. *Water source separation.*

- a. All permits shall be issued with a condition which prohibits any material extraction within 100 horizontal feet of any water source existing prior to original permit issuance.
- b. All counter permits shall be issued with a condition which requires that a four-foot vertical separation [FROM]between extraction operations and the seasonal high water table be maintained.
- c. All CLUPS shall be issued with a condition which requires that a [TWO] four-foot vertical separation [FROM]between extraction operations and the seasonal high water table be maintained.

- d. There shall be no dewatering either by pumping, ditching or some other form of draining unless an exemption is granted by the planning commission. The exemption for dewatering may be granted if the operator provides a statement under seal and supporting data from a duly licensed and qualified impartial civil engineer, that the dewatering will not lower any of the surrounding property's water systems and the contractor posts a bond for liability for potential accrued damages.
5. *Excavation in the water table.* Excavation in the water table greater than 300 horizontal feet of a water source may be permitted with the approval of the planning commission based on the following:
 - a. Certification by a qualified independent civil engineer or professional hydrogeologist that the excavation plan will not negatively impact the quantity of an aquifer serving existing water sources.
 - b. The installation of a minimum of three water monitoring tubes or well casings as recommended by a qualified independent civil engineer or professional hydrogeologist adequate to determine flow direction, flow rate, and water elevation.
 - c. Groundwater elevation, flow direction, and flow rate for the subject parcel, measured in three-month intervals by a qualified independent civil engineer or professional hydrogeologist, for at least one year prior to application. Monitoring tubes or wells must be kept in place, and measurements taken, for the duration of any excavation in the water table.
 - d. Operations shall not breach an aquifer-confining layer.
 6. *Waterbodies.*
 - a. An undisturbed buffer shall be left and no earth material extraction activities shall take place within [100] 200 linear feet from excavation limits and the ordinary high water level of surface water bodies such as a lake, river, stream, [OR OTHER WATER BODY, INCLUDING] riparian wetlands and mapped floodplains as defined in KPB 21.06. This regulation shall not apply to man-made waterbodies being constructed during the course of the materials extraction activities. In order to prevent discharge, diversion, or capture of surface water, an additional setback from lakes, rivers, anadromous streams, and riparian wetlands may be required.
 - b. Counter permits and CLUPS may contain additional conditions addressing surface water diversion.
 7. *Fuel storage.* Fuel storage for containers larger than 50 gallons shall be contained in impermeable berms and basins capable of retaining 110 percent of storage capacity to minimize the potential for uncontained spills or leaks. Fuel storage containers 50 gallons or

smaller shall not be placed directly on the ground, but shall be stored on a stable impermeable surface.

8. *Roads.* Operations shall be conducted in a manner so as not to damage borough roads as required by KPB 14.40.175 and will be subject to the remedies set forth in KPB 14.40 for violation of this condition.
9. *Subdivision.* Any further subdivision or return to acreage of a parcel subject to a conditional land use or counter permit requires the permittee to amend their permit. The planning director may issue a written exemption from the amendment requirement if it is determined that the subdivision is consistent with the use of the parcel as a material site and all original permit conditions can be met.
10. *Dust control.* Dust suppression is required on haul roads within the boundaries of the material site by application of water or calcium chloride.
11. *Hours of operation.* [ROCK CRUSHING EQUIPMENT SHALL NOT BE OPERATED BETWEEN 10:00 P.M. AND 6:00 A.M.]
 - a. Processing equipment shall not be operated between 7:00 p.m. and 6:00 a.m.
 - b. The planning commission may grant exceptions to increase the hours of operation and processing based on surrounding land uses, topography, screening the material site from properties in the vicinity and conditions placed on the permit by the planning commission to mitigate the noise, dust and visual impacts caused by the material site.
12. *Reclamation.*
 - a. Reclamation shall be consistent with the reclamation plan approved by the planning commission or planning director as appropriate in accord with KPB 21.29.060.
 - b. [AS A CONDITION OF ISSUING THE PERMIT, THE APPLICANT SHALL SUBMIT A RECLAMATION PLAN AND POST A BOND TO COVER THE ANTICIPATED RECLAMATION COSTS IN AN AMOUNT TO BE DETERMINED BY THE PLANNING DIRECTOR. THIS BONDING REQUIREMENT SHALL NOT APPLY TO SAND, GRAVEL OR MATERIAL SITES FOR WHICH AN EXEMPTION FROM STATE BOND REQUIREMENTS FOR SMALL OPERATIONS IS APPLICABLE PURSUANT TO AS 27.19.050.] The applicant shall operate the material site consistent with the approved reclamation plan and provide bonding pursuant to 21.29.060(B). This bonding requirement shall not apply to sand, gravel or material sites for which an exemption from state bond requirements for small operations is applicable pursuant to AS 27.19.050.

13. *Other permits.* Permittee is responsible for complying with all other federal, state and local laws applicable to the material site operation, and abiding by related permits. These laws and permits include, but are not limited to, the borough's flood plain, coastal zone, and habitat protection regulations, those state laws applicable to material sites individually, reclamation, storm water pollution and other applicable Environmental Protection Agency (EPA) regulations, clean water act and any other U.S. Army Corp of Engineer permits, any EPA air quality regulations, EPA and ADEC air and water quality regulations, EPA hazardous material regulations, U.S. Dept. of Labor Mine Safety and Health Administration (MSHA) regulations (including but not limited to noise and safety standards), and Federal Bureau of Alcohol, Tobacco and Firearm regulations regarding using and storing explosives. Any violation of these regulations or permits reported to or observed by borough personnel will be forwarded to the appropriate agency for enforcement.
14. [VOLUNTARY]Volunteered permit conditions. Conditions may be included in the permit upon agreement of the permittee and approval of the planning commission for CLUPs or the planning director for counter permits. Such conditions must be consistent with the standards set forth in KPB 21.29.040(A). Planning commission approval of such conditions shall be contingent upon a finding that the conditions will be in the best interest of the borough and the surrounding property owners. [VOLUNTARY] Volunteered permit conditions apply to the subject parcel and operation, regardless of a change in ownership. A change in [VOLUNTARY] volunteered permit conditions may be proposed [AT] by permit [RENEWAL OR AMENDMENT] modification.
15. *Signage.* For permitted parcels on which the permittee does not intend to begin operations for at least 12 months after being granted a conditional land use permit, the permittee shall post notice of intent on parcel corners or access, whichever is more visible. Sign dimensions shall be no more than 15" by 15" and must contain the following information: the phrase "Permitted Material Site" along with the permittee's business name and a contact phone number.
16. Appeal. The permit shall not be issued nor operable until the deadline for filing an appeal pursuant to KPB 21.20 has expired.
17. Sound level.
- a. No sound resulting from the materials extraction activities shall create a sound level, when measured at or within the property boundary of the adjacent land, that exceeds 75 dB(A).

- b. For any sound that is of short duration between the hours of 7 a.m. and 7 p.m. the levels may be increased by:
 - i. Five dB(A) for a total of 15 minutes in any one hour; or
 - ii. Ten dB(A) for a total of five minutes in any hour; or
 - iii. Fifteen db(A) for a total of one and one-half minutes in any one-hour period.
 - c. At its discretion, the planning commission or planning director, as applicable, may reduce or waive the sound level requirements on any or all property boundaries. Sound level requirements shall be made in consideration of and in accordance with existing uses of the properties in the vicinity at the time of approval of the permit.
 - d. Mandatory condition KPB 21.29.050(A)(17) shall expire 365 days from adoption of KPB 21.29.050(A)(17) unless extended or modified by the assembly
18. Reverse signal alarms. Reverse signal alarms, used at the material site on loaders, excavators, and other earthmoving equipment shall be more technically advanced devices; such as, a multi-frequency “white noise” alarms rather than the common, single (high-pitch) tone alarms. At its discretion, the planning commission or planning director, as applicable, may waive this requirement or a portion of this requirement. The waiver of this requirement shall be made in consideration of and in accordance with existing uses of the properties in the vicinity at the time of approval of the permit.
19. Ingress and egress. The planning commission or planning director may determine the points of ingress and egress for the material site. The permittee is not required to construct haul routes outside the parcel boundaries of the material site. Driveway authorization must be acquired, from either the state through an “Approval to Construct” or a borough road service area as appropriate, prior to issuance of a material site permit when accessing a public right-of-way.
20. Dust suppression. Dust suppression shall be required when natural precipitation is not adequate to suppress the dust generated by the material site traffic on haul routes. Based on surrounding land uses the planning commission or planning director, as applicable, may waive or reduce the requirement for dust suppression on haul routes.

21. Surface water protection. Use of surface water protection measures as specified in KPB 21.29.030(A)(8) must be approved by a licensed civil engineer.
22. Groundwater elevation. All material sites must maintain one monitoring tube per ten acres of excavated area four feet below the proposed excavation.
23. Setback. Material site excavation areas shall be 250-feet from the property boundaries of any local option zoning district, existing public school ground, private school ground, college campus, child care facility, multi-purpose senior center, assisted living home, and licensed health care facility. If overlapping, the buffer areas of the excavation shall be included in the 250-foot setback.

21.29.055. Decision.

The planning commission or planning director, as applicable, shall approve permit applications meeting the mandatory conditions or shall disapprove permit applications that do not meet the mandatory conditions. The decision shall include written findings explaining how the application meets the mandatory permit conditions, and when applicable, there shall be written findings supporting any site-specific alterations to the mandatory condition as specifically allowed by KPB 21.29.050(A)(2)(a), (2)(c), (2)(d), (2)(e), (2)(g), (3), (4)(d), (5), (11)(b), (12), (14), (17)(c), (18), (19), and (20) and as allowed for the KPB 21.29.060 reclamation plan.

21.29.060. Reclamation plan.

- A. All material site permit applications require an overall reclamation plan along with a five-year reclamation plan. A site plan for reclamation shall be required including a scaled drawing with finished contours. A five-year reclamation plan must be submitted with a permit extension request.
- B. The applicant shall revegetate with a non-invasive plant species and reclaim all disturbed land [UPON EXHAUSTING THE MATERIAL ON-SITE, OR WITHIN A PRE-DETERMINED TIME PERIOD FOR LONG-TERM ACTIVITIES, SO AS TO LEAVE THE LAND IN A STABLE CONDITION. RECLAMATION MUST OCCUR FOR ALL EXHAUSTED AREAS OF THE SITE EXCEEDING FIVE ACRES BEFORE A FIVE-YEAR RENEWAL PERMIT IS ISSUED, UNLESS OTHERWISE REQUIRED BY THE PLANNING COMMISSION. IF THE MATERIAL SITE IS ONE ACRE OR LESS IN SIZE AND HAS BEEN GRANTED A CLUP DUE TO EXCAVATION IN THE WATER TABLE, RECLAMATION MUST BE PERFORMED AS SPECIFIED BY THE PLANNING COMMISSION OR PLANNING DIRECTOR IN THE CONDITIONAL USE OR COUNTER PERMIT] within the time period approved with the reclamation plan so as to leave the land in a stable condition. Bonding shall be required at \$2,000.00 per acre for all

acreage included in the current five-year reclamation plan. In the alternative, the planning director may accept a civil engineer's estimate for determining the amount of bonding. If the applicant is bonded with the state, the borough's bonding requirement is waived. Compliance with reclamation plans shall be enforced under KPB 21.50.

- C. The following measures must be considered in the [PREPARING] preparation, approval and [IMPLEMENTING] implementation of the reclamation plan, although not all will be applicable to every reclamation plan.
1. Topsoil that is not promptly redistributed to an area being reclaimed will be separated and stockpiled for future use. [THIS MATERIAL WILL BE PROTECTED FROM EROSION AND CONTAMINATION BY ACIDIC OR TOXIC MATERIALS AND PRESERVED IN A CONDITION SUITABLE FOR LATER USE.]
 2. The area will be backfilled, graded and recontoured using strippings, overburden, and topsoil [TO A CONDITION THAT ALLOWS FOR THE REESTABLISHMENT OF RENEWABLE RESOURCES ON THE SITE WITHIN A REASONABLE PERIOD OF TIME. IT WILL BE STABILIZED TO A CONDITION THAT WILL ALLOW SUFFICIENT MOISTURE FOR REVEGETATION] so that it will be stabilized to a condition that will allow for the revegetation as required by KPB 21.29.060(B).
 3. [SUFFICIENT QUANTITIES OF STOCKPILED OR IMPORTED TOPSOIL WILL BE SPREAD OVER THE RECLAIMED AREA TO A DEPTH OF FOUR INCHES TO PROMOTE NATURAL PLANT GROWTH THAT CAN REASONABLY BE EXPECTED TO REVEGETATE THE AREA WITHIN FIVE YEARS. THE APPLICANT MAY USE THE EXISTING NATURAL ORGANIC BLANKET REPRESENTATIVE OF THE PROJECT AREA IF THE SOIL IS FOUND TO HAVE AN ORGANIC CONTENT OF 5% OR MORE AND MEETS THE SPECIFICATION OF CLASS B TOPSOIL REQUIREMENTS AS SET BY ALASKA TEST METHOD (ATM) T-6.] The [MATERIAL] topsoil used for reclamation shall be reasonably free from roots, clods, sticks, and branches greater than 3 inches in diameter. Areas having slopes greater than 2:1 require special consideration and design for stabilization by a licensed engineer.
 4. Exploration trenches or pits will be backfilled. Brush piles and unwanted vegetation shall be removed from the site, buried or burned. Topsoil and other organics will be spread on the backfilled surface to inhibit erosion and promote natural revegetation.
 5. [PEAT AND T]Topsoil mine operations shall ensure a minimum of [TWO] four inches of suitable growing medium is left or replaced on the site upon completion of the reclamation activity (unless otherwise authorized).
 6. Ponding may be used as a reclamation method as approved by the planning commission.
- D. The five-year reclamation plan shall describe the total acreage to be reclaimed [EACH YEAR, A LIST OF EQUIPMENT (TYPE AND QUANTITY) TO BE USED IN

RECLAMATION, AND A TIME SCHEDULE OF RECLAMATION MEASURES] relative to the total excavation plan.

21.29.070. Permit extension and revocation.

- A. Conditional land use permittees must submit a request in writing for permit extension every five years after the permit is issued. Requests for permit extension must be made at least 30 days prior to permit expiration. Counter permittees must submit any request for a 12-month extension at least 30 days prior to the expiration of the original 12-month permit period.
- B. A permit extension certificate for a CLUP may be granted by the planning director after 5 years, and after one year for a counter permit where no modification to operations or conditions are proposed.
- C. Permit extension may be denied if: (1) reclamation required by this chapter and the original permit has not been performed; (2) the permittee is otherwise in noncompliance with the original permit conditions; or (3) the permittee has had a permit violation in the last two years and has not fulfilled compliance requests.
- D. A modification application shall be processed pursuant to KPB 21.29.030-050 with public notice given as provided by KPB 21.25.060 when operators request modification of their permit conditions based on changes in operations set forth in the modification application.
- E. There shall be no fee for permit extensions approved by the planning director. The fee for a permit modification processed under KPB 21.29.070(D) will be the same as an original permit application in the amount listed in the most current Kenai Peninsula Borough Schedule of Rates, Charges and Fees.
- F. Failure to submit a request for extension will result in the expiration of the permit. The borough may issue a permit termination document upon expiration pursuant to KPB 21.29.080. Once a permit has expired, a new permit application approval process is required in order to operate the material site.
- G. Permits may be revoked pursuant to KPB 21.50. 21.29.080. - Permit termination.

When a permit expires, is revoked, or a permittee requests termination of their permit, a review of permit conditions and site inspections will be conducted by the planning department to ensure code compliance and verify site reclamation prior to termination. When the planning director determines that a site qualifies for termination, a termination document shall be issued to the permittee.

21.29.090. Permit modifications.

If a permittee revises or intends to revise operations (at a time other than permit extension) so that they are no longer consistent with the original application, a permit modification is required. The planning director shall determine whether the

revision to operations requires a modification. Permit modification shall be processed in the same manner as original permits.

21.29.100. Recordation.

All permits, permit extensions, modified permits, prior existing uses, and terminations shall be recorded. Failure to record a material site document does not affect the validity of the documents.

21.29.110. Violations.

- A. Violations of this chapter shall be governed by KPB 21.50.
- B. In addition to the remedies provided in KPB 21.50, the planning director may require bonding in a form and amount adequate to protect the borough's interests for an owner or operator who has been cited for three violations of KPB 21.50, 21.25, and 21.29 within a three-year period. The violations need not be committed at the same material site. Failure to provide requested bonding may result in permit revocation proceedings.

21.29.120. Prior existing uses.

- A. Material sites are not held to the standards and conditions of a CLUP if a prior existing use (PEU) determination was granted for the parcel in accordance with KPB 21.29.120(B). To qualify as a PEU, a parcel's use as a material site must have commenced or have been operated after May 21, 1986, and prior to May 21, 1996, provided that the subject use continues in the same location. In no event shall a prior existing use be expanded beyond the smaller of the lot, block, or tract lines as they existed on May 21, 1996. If a parcel is further subdivided after May 21, 1996, the pre-existing use may not be expanded to any lot, tract, or parcel where extraction had not occurred before or on February 16, 1999. If a parcel is subdivided where extraction has already occurred, the prior existing use is considered abandoned, and a CLUP must be obtained for each parcel intended for further material site operations. The parcel owner may overcome this presumption of abandonment by showing that the subdivision is not inconsistent with material site operation. If a parcel subject to a prior existing use is conveyed, the prior existing use survives the conveyance.
- B. Owners of sites must have applied to be registered as a prior existing use prior to January 1, 2001.
- C. [ANY PRIOR EXISTING USE THAT HAS NOT OPERATED AS A MATERIAL SITE BETWEEN MAY 21, 1996, AND MAY 21, 2011, IS CONSIDERED ABANDONED AND MUST THEREAFTER COMPLY WITH THE PERMIT REQUIREMENTS OF THIS CHAPTER. THE PLANNING DIRECTOR SHALL DETERMINE WHETHER A PRIOR EXISTING USE HAS BEEN ABANDONED. AFTER GIVING NOTICE TO THE PARCEL OWNER THAT A PEU IS CONSIDERED ABANDONED, A PARCEL OWNER MAY PROTEST THE TERMINATION OF THE PEU BY FILING WRITTEN NOTICE WITH THE PLANNING DIRECTOR ON A FORM PROVIDED BY THE PLANNING DEPARTMENT.

WHEN A PROTEST BY A PARCEL OWNER IS FILED, NOTICE AND AN OPPORTUNITY TO MAKE WRITTEN COMMENTS REGARDING PRIOR EXISTING USE STATUS SHALL BE ISSUED TO OWNERS OF PROPERTY WITHIN A ONE-HALF MILE RADIUS OF THE PARCEL BOUNDARIES OF THE SITE. THE OWNER OF THE PARCEL SUBJECT TO THE PRIOR EXISTING USE MAY SUBMIT WRITTEN INFORMATION, AND THE PLANNING DIRECTOR MAY GATHER AND CONSIDER ANY INFORMATION RELEVANT TO WHETHER A MATERIAL SITE HAS OPERATED. THE PLANNING DIRECTOR MAY CONDUCT A HEARING IF HE OR SHE BELIEVES IT WOULD ASSIST THE DECISION-MAKING PROCESS. THE PLANNING DIRECTOR SHALL ISSUE A WRITTEN DETERMINATION WHICH SHALL BE DISTRIBUTED TO ALL PERSONS MAKING WRITTEN COMMENTS. THE PLANNING DIRECTOR'S DECISION REGARDING TERMINATION OF THE PRIOR EXISTING USE STATUS MAY BE APPEALED TO THE PLANNING COMMISSION WITHIN 15 DAYS OF THE DATE OF THE NOTICE OF DECISION.]

The owner of a material site that has been granted a PEU determination shall provide proof of compliance with AS 27.19.030 – 050 concerning reclamation to the planning department no later than July 1, 2021. The proof shall consist of an Alaska Department of Natural Resources (DNR) approved reclamation plan and receipt for bonding or a letter of intent filed with DNR.

1. The planning department may request proof of continued compliance with AS 27.19.030 – 050 on an annual basis.
2. Pursuant to KPB 21.29.110 the enforcement process and remedies set forth in KPB 21.50 shall govern if the proof that the statutory requirements contained in AS 27.19.030-050 is not provided to the planning department.

SECTION 3. That KPB 21.50.055 is hereby amended, as follows:

21.50.055. Fines.

- A. Following are the fines for violations of this title. Each day a violation occurs is a separate violation. Violations begin to accrue the date the enforcement notice is issued and continue to the date the enforcement is initially set for hearing. The fine for a violation may not be reduced by the hearing officer to less than the equivalent of one day's fine for each type of violation.

Code Chapter & Section	Violation Description	Daily Fine
KPB 20.10.030(A)	Offering land for sale without final plat approval	\$300.00
KPB 20.10.030(B)	Filing/recording unapproved subdivision/plat	\$300.00
KPB 20.10.030(C)	Violation of subdivision code or condition	\$300.00
KPB 21.05.040(C)	Violation of variance conditions	\$300.00
KPB 21.06.030(D)	Structure or activity prohibited by KPB 21.06	\$300.00
KPB 21.06.040	Failure to obtain a Development Permit/Floodplain Management	\$300.00
KPB 21.06.045	Failure to obtain a SMFDA Development Permit/Violation of SMFDA permit conditions/Floodplain Management	\$300.00
KPB 21.06.050	Violation of permit conditions/Floodplain Management	\$300.00
KPB 21.18.071	Failure to obtain staff permit/Violation of staff permit/Anadromous Streams Habitat Protection	\$300.00
KPB 21.18.072	Failure to obtain limited commercial activity permit/Violation of permit conditions/Anadromous Streams Habitat Protection	\$300.00
KPB 21.18.075	Prohibited use or structure/Anadromous Streams Habitat Protection	\$300.00
KPB 21.18.081	Failure to obtain Conditional Use Permit/Violation of Conditional Use Permit Condition/Anadromous Streams Habitat Protection	\$300.00
KPB 21.18.090	Failure to obtain prior existing use/structure permit/Violation of permit conditions/Anadromous Streams Habitat Protection	\$300.00
KPB 21.18.135(C)	Violation of emergency permit conditions/anadromous stream habitat protection	\$300.00

KPB 21.25.040	Failure to Obtain a Permit/Material Site/Correctional community residential center/Concentrated Animal Feeding Operation	\$300.00
KPB 21.28.030	Violation of permit conditions/Concentrated Animal Feeding Operations	\$300.00
KPB 21.29.020	Failure to Obtain a counter permit/Material Site Permits	\$300.00
KPB 21.29.050	Violation of Conditional Land Use Permit Conditions/Material Site Permits Also applies to KPB 21.26 material site permits	\$300.00
KPB 21.29.060	Violation of Reclamation Plan/Material Site Permits Also applies to KPB 21.26 material site permits	\$300.00
<u>KPB 21.29.120</u>	<u>Failure to Provide Reclamation Plan and Proof of Bonding or Letter of Intent</u>	<u>\$300.00</u>
KPB 21.44.100	Violation of Pre-existing structures/Local Option Zoning	\$300.00
KPB 21.44.110(D)	Prohibited expansion of nonconforming use/Local Option Zoning	\$300.00
KPB 21.44.110(E)	Prohibited Change in Use/Local Option Zoning	\$300.00
KPB 21.44.110(G)	Violation of Conditions on Nonconforming Use/Local Option Zoning	\$300.00
KPB 21.44.130(C)(D)	Violation of Home Occupation Standards and Conditions/Local Option Zoning	\$300.00
KPB 21.44.130(F)	Disallowed Home Occupation/Local Option Zoning	\$300.00
KPB 21.44.135	Failure to file development notice	\$300.00
KPB 21.44.160(A)(B)	Prohibited use	\$300.00
KPB 21.44.160(C)	Violation of Development Standards/Single Family Zoning/Local Option Zoning	\$300.00
KPB 21.44.165(A)(B)	Prohibited use	\$300.00

KPB 21.44.165(C)	Violation of Development Standards/Small Lot Residential Zoning/Local Option Zoning	\$300.00
KPB 21.44.170(A)(B)	Prohibited use	\$300.00
KPB 21.44.170(C)	Violation of Development Standards/Rural Residential District/Local Option Zoning	\$300.00
KPB 21.44.175(B)(C)	Prohibited Use	\$300.00
KPB 21.44.175(D)	Violation of Development Standards/Residential Waterfront	\$300.00
KPB 21.44.180(A)(B)	Prohibited Use	\$300.00
KPB 21.44.180(C)	Violation of Development Standards/Multi-Family Residential District/Local Option Zoning	\$300.00
KPB 21.44.190(A)(B)	Prohibited Use	\$300.00
KPB 21.44.190(C)	Violation of Development Standards/Industrial District/Local Option Zoning	\$300.00
KPB 21.46.030(b)	Failure to maintain bear-resistant garbage cans/Local option zone/Birch and Grove Ridge subdivisions Rural Residential District	\$300.00
KPB 21.50.100(F)	Removal of posted enforcement notice	\$300.00
KPB 21.50.100(G)	Violation of enforcement notice	\$1,000.00
KPB 21.50.130(I)	Violation of an enforcement order	\$1,000.00

SECTION 4. That this ordinance shall become effective upon its enactment.

ENACTED BY THE ASSEMBLY OF THE KENAI PENINSULA BOROUGH THIS * DAY OF *, 2019.

Kelly Cooper, Assembly President

ATTEST:

Johni Blankenship, MMC, Borough Clerk

12/03/19 Vote on motion to amend by substitute:

Yes: Bjorkman, Blakeley, Carpenter, Cox, Dunne, Hibbert, Johnson, Smalley, Cooper

No: None

Absent: None
