Staff report given by Platting Specialist Julie Hindman.

Chair Brantley open the meeting for public comment.

Chris Bentz, Engineer; AK DOT, P.O. Box 196900, Anchorage, AK 99519: Mr. Bentz is one of the engineers on this project. He noted receiving preliminary plat approval is the first step in this process. This will allow them to submit the initial funding request. Once funding is secured, they will begin to reach out and enter into negotiations with effected landowners. He then made himself available for questions.

The following individuals spoke in opposition to granting preliminary approval to this plat. General concerns expressed was the lack of transparency, lack proper noticing, important information left off the plat & plat drawings difficult to understand. There were several requests to postpone action on this plat to allow for more time for review and discussions with AK DOT.

Members of the public who testified in-person:

1. John Smart; PO Box 243, Moose Pass, 99631
2. Edward Estes; PO Box 26, Moose Pass, AK 99631

MOTION: Commissioner Martin moved, seconded by Commissioner Hooper to grant preliminary approval to ROW Acquisition Seward Hwy. MP 25.5 to 36 Trial River to Sterling WYE Rehabilitation, based on staff recommendations and compliance to borough code.

Commissioner Venuti noted that based on the testimony from the community there seems to be a failure of adequate communication. There is also a suggestion to postpone action on this item. He asked Mr. Bentz what would be the effect on this project. Mr. Bentz replied it would cause a delay in securing needed funding to move the project forward. It would delay the negotiations with area property owners and the ability to address their concerns.

AMENDMENT MOTION: Commissioner Martin moved, seconded by Commissioner Venuti to postpone action on this item until the July 18, 2022 Planning Commission meeting.

Commissioner Brantley stated he believes what is going on here is a misunderstanding. He understands that AK DOT is working to secure funding so that they can begin negotiations with effected landowners; which in turn would result in more details for the public. He is not sure how this situation will be resolved by postponing action on this item, but he will support the postponement request.

Seeing and hearing no objection or discussion, the motion was carried by the following vote:

Staff report given by Platting Specialist Julie Hindman.

Chair Brantley open the meeting for public comment.

Andre Koepple, Fixed Height, LLC, Surveyor: 225 W. 23rd Ave., Anchorage, AK 99503: Mr. Koepple spoke in support of the preliminary approval of this plat. He stated there had been some revisions to the plat from the last meeting. One change was the total number of lots created by the plat was reduced by one. He noted that this is privately owned land and the landowners have a right to subdivide their land according to borough code.

Numerous individuals spoke in opposition to the preliminary approval of this plat. Their concerns have not changed from those expressed at the May 9, 2022 plat committee meeting. Some of the concerns expressed were, water right issues, the negative effect on the environment due to the significant increase of

lots into the area, inadequate access for the proposed new lots and lack of communication with the area residents. Those who spoke in opposition to granting preliminary approval to the plat were:

1. Philip Brudie, P.O. Box 111, Homer, AK 99603
2. Doug Kossler; 2131 Baranoff Dr., Anchorage, AK 99517
3. Zoey Coyle; 350 Mountain View Dr., Homer, AK 99603

MOTION: Commissioner Martin moved, seconded by Commissioner Hooper, to grant preliminary approval to East Oyster Cove Subdivision, based on staff recommendations and compliance to borough code.

AMENDMENT MOTION: Commissioner Martin moved, seconded by Commissioner Hooper, to grant exception request to KPB 20.30.030 – Proposed Street Layouts, citing findings 4-9 in support of standards one, two and three.

Commissioner Brantley noted that this exception request is in line with other communities similar to this, remote properties without platted streets. These type of exception requests have been routinely granted in the past so he will be supporting this exception request.

Seeing and hearing no objection or discussion, the motion was carried by the following vote:

AMENDMENT MOTION FAILED- TIED VOTE

No	0	Hooper, Venuti

Commissioner Venuti stated he agrees Kachemak Bay is a magical & beautiful place and understands the concerns expressed by the public to this plat. He understands that they do not want to see change, but change is inevitable. He then stated that it was hard for him to support this issue.

Ms. Hindman informed the committee that while they do not have to cite findings to support their denial of an exception request, you are just requiring the petitioner to comply with code. However, she wanted them to understand that by approving the preliminary plat you will be requiring the petitioner to dedicate roads instead of public access easements and that each lot will have to front a dedicated right-of-way.

Commissioner Brantley then stated that he understands that this is a remote area and that it would not be practical to all these lots to front a right-of-way. He then asked if the committee, with this additional information, would like to reconsider the exception request. There was no response.

Commissioner Brantley noted that plats are quasi-judicial matters. That it doesn't really matter so much how they feel about the request but that it complies with code. He understands the objections by the public to this plat, if he had a cabin in this area, he personally would not want these new lots. If this plat is denied the committee will have to come up with findings based in code to support the denial. Code does not require landowners wanting to subdivide their properties to first talk with their neighbors. He then noted the plat meets the code requirements and the he will be supporting preliminary approval of the plat. If this plat were denied and the petitioners appealed the decision, there would be nothing in code to support the denial and the decision would be overturned.

Borough Deputy Attorney Steinhage reminded the committee before they took their vote, AS 29.40.110(b) states the planning authority shall state in writing the findings for disapproval of a plat. Not knowing which way, the vote would go, he wanted to make sure the committee understood that if they denied the plat, they will need to provide good findings that can be reduced into writing

Seeing and hearing no objection or discussion, the motion was carried by the following vote:

MOTION PASSED AS AMENDED BY UNANIMOUS VOTE

Yes	4	Brantley, Hooper, Martin, Venuti

Commissioner Brantley stated that now that the motion has passed, he believed it would be appropriate to entertain a reconsideration for the exception request.

RECONSIDERATION: Commissioner Hooper moved and was seconded by Commissioner Venuti to reconsider the exception request to KPB 20.30.030 – Proposed Street Layouts, citing findings 4-9 in support of standards one, two and three.

Commissioner Martin stated he understands that it is disruptive to see all these new lots come in to this quiet and pristine area. He believes granting this exception request will be less destructive and have less of an environmental impact to the area. Building rights-of-way would require that lots of trees be cut down which would cause more harm to the environment. He will be supporting this exception request.

Commissioner Hooper encouraged the other area landowners to contact the AK Mental Health Trust Authority to see if they can negotiate a proposal to remedy some of their concerns.

Seeing and hearing no objection or discussion, the motion was carried by the following vote:
